Title: Texas South-Eastern Railroad Company Photographs and Records

Collection Number: 2000:078

Creator: Texas South-Eastern Railroad Company

Collection Dates: 1911-2002

Extent: 1.5 cubic feet (3 boxes)

Language: English

Collection Abstract:

The Texas South-Eastern Railroad Company was founded by T. L. L. Temple in 1900 in Diboll, Texas to serve Temple's East Texas lumber operations. From 1900-1996, it was primarily used to transport forest products to and from the Diboll mill, connecting to the mainline St. Louis & Southwestern Railway in Lufkin. This collection consists of photographs depicting TSE's locomotives, freight cars, employees, constructing track of the Lufkin Z&OO zoo railroad, and transporting Engine 22 to the Texas State Railroad, as well as business papers providing histories of TSE's locomotives, the *Pineywoods Special*, and records from the company's last year hauling freight from Diboll to Lufkin.

Biographical/Historical Note:

The Texas South-Eastern Railroad Company was founded by T. L. L. Temple in 1900 in Diboll to serve Southern Pine Lumber Company logging operations in Angelina, Trinity, Houston, and Cherokee counties. In 1906 TSE constructed its mainline northwestward from Diboll, reaching into Trinity and Houston counties, a distance of about eighteen miles, and added a ten mile spur from Blix to Lufkin in 1908. By 1922 the mainline track extended to the logging camp known as Fastrill, in Cherokee County. TSE leased the Texas State Railroad between Palestine and Rusk from November 1962 through

December 1969 and operated the line as its Northern Division. The railroad abandoned most of its track mileage beginning in the 1940s, following Southern Pine Lumber Company's abandonment of large scale railroad based logging camps. Passenger service was discontinued in 1942. In 1996 Temple-Inland sold TSE's spur into Lufkin and TSE then became only a switching railroad at Diboll, in addition to storing cars for Union Pacific.

Collection Scope and Content:

The Texas South-Eastern Railroad Company Photographs and Records collection is an artificial collection comprised of four donations by TSE employees. The bulk of the collection consists of photographs of TSE steam and diesel locomotives, TSE employees, TSE freight cars, and rolling stock of numerous railroad companies listed under the Corporate Names subject terms. Some photographs document events such as building the track and bridge for the Lufkin Zoo Z&OO Railroad, transporting TSE Engine 22 to Rusk for operation by the Texas State Railroad, and the *Pineywoods Special* Diboll Day fundraiser. The collection also contains a small amount of business records including a 1925 TSE time table, a 1941 St. Louis Southwestern Railway Company time table, and 1915 and 1937 TSE passenger tariffs. Also highlighted are histories of TSE's locomotives, and several business records from 1996 documenting the company's last year transporting freight from Diboll to Lufkin. Folder level scope and content notes are provided for further information when necessary.

Access and Use

Access Restrictions: There are no restrictions on this collection.

Acquisition Information: Accession 1999:051 was donated by George Honea on July 21, 1999; accession 1999:068 was donated by George Honea on September 20, 1999; accession 2000:078

was donated by Gary Mike Smith on July 19, 2000; and accession 2002:048 was donated by Gary Mike Smith on June 18, 2002.

Custodial History: This collection was compiled artificially by The History Center Staff to consolidate several small Texas South-Eastern Railroad Company related donations. The records and photographs were donated by George Honea, former TSE general manager, and Gary Mike Smith, current TSE general manager. Some of the photographs were taken by George Honea, but the bulk of the materials had been compiled by Honea and Smith throughout the course of their employment at TSE. The 2000:078 accession was originally loaned to The History Center on July 19, 2000 for use in the September 2000 TSE Railroad centennial special issue. In August 2000 the collection was officially acquired by The History Center and formally accessioned in 2011.
