My dear Mrs Eddy,
Your letter came duly to hand and indeed gave me great pleasure to know the horses would be acceptable; but couldn't write then because of having to leave on a trip before having definite information to give. They go forward today however, from Lexington Ky. in charge of Mr J. M. Osborn, a reliable man I think; and hope will reach you without delay.

I am so glad to do this for you, and if they will add somewhat to your pleasure I shall be very happy.

Your reference to our business also was very gratifying, and I wish you to know that much of its success I attribute to Christian Science - for which I am very grateful to you - With love, I am
Most sincerely T L Teasdale
