Mrs. Mary Baker G. Eddy,

Concord, N.J.

My Dear Mrs. Eddy:-

I thank you from my heart for your loving thought in sending me the picture which came safely some days ago, but I have been away and just returned. I prize it very highly, and hope that it will always be to me an inspiration to do good. I am earnestly striving to live my gratitude to you-having much to be thankful for-especially in regard to my children who have been so much benefitted, and are developing into sweet characters, through the ministrations of Christian Science. It has been a great blessing, and my heart goes out to you in dearest love. I just wanted to tell you this much.

Sincerely yours,
