NOTE:—The publishers wish to call attention to the fact that the canvass on this directory was completed and finished August 14, 1937.

INTRODUCTION

This is the second edition of an Interstate Modern City Directory for Lufkin, Texas.

This Directory is different in every respect from the ordinary city directory as issued by so-called "association members." It is the belief of the publishers that there should be as much improvement in the publication of city directories as in all other lines of endeavor, and it is our firm intention to furnish the public with the highest type of service possible.

This Directory is the result of a thorough house to house canvass, call-back and checking system to insure as complete and perfect information as it is possible to obtain by careful and honest effort. The basic value of such a work lies in its completeness and reliability. We are proud of our reputation for such.

The new and valuable features of this Directory are the number of children under eighteen to each family; a census by absolute and accurate count; the cosmopolitan telephone Directory; ownership of homes in both the alphabetical and street directories; a street telephone directory; a numerical telephone directory and a classified directory of nationally-advertised brands of merchandise. Many of these features are used exclusively by the Interstate and affiliated companies.

It also includes a comprehensive and carefully compiled classified business directory.

While in an undertaking of this kind some error is inevitable, yet the publisher guarantees the quality of the book, and makes it a requisite of their work that every subscriber must be entirely satisfied.

The 1937 Lufkin Modern Directory is offered entirely on its merits, with the approval of the business public and the Chamber of Commerce, the publisher hopes to supply Lufkin with another edition as soon as it is required. This company promises that all future editions will be compiled in the same careful and exact method as this issue.

The Publisher wishes to express appreciation for the kind cooperation and support which the enterprise has received from the people of Lufkin, and especially from those business men whose public spirited support made possible its publication.

Respectfully,

Page-Interstate Company

HEBER PAGE, Owner

LUFKIN
TEXAS

Modern Resident Directory

1937

Containing the full name, husband's or wife's name, number of children under eighteen, designation of home ownership, occupation, place of occupation and home address of every person eighteen years of age or over residing in Lufkin and immediate surrounding territory. Also the new and exclusive Cosmopolitan Telephone Feature.

Cosmopolitan Telephone Feature

One of the most valuable, and strictly exclusive features of the Interstate Directories is the Cosmopolitan Feature.

After every name in this entire resident directory, unless absolutely impossible, we show the most accessible telephone over which each person can be reached. The three following designations are used, in every case the last item in the information listing:—

△Number designates telephone is in the house in which person lives.

†△Number designates the telephone is in an adjacent house, but person will be called to telephone upon request.

B△ Number designates the telephone at place of business, where the person works, and also that there is no residence or adjacent telephone over which person can be reached.
