

C. O. D. IF YOU WISH

If it is not convenient for you to go to the Post Office for a Money Order, we can send your Appliance C. O. D. You do not have to pay until the postman delivers it. If you want us to send the Appliance this way, be sure to write clearly on the measure chart "Ship C.O.D".

Dear Mrs. Ramsey:

Your inquiry received this morning gives us an opportunity to explain fully the many unusual features of the Brooks Appliance for rupture. You are naturally anxious for relief from this troublesome condition, and we sincerely hope our letter and Booklet will prove without question that we have the type of support you are in need of.

Protection for your rupture that it may not protrude or enlarge - is one of the most important points. Comfort, durability, a feeling of security and safety, a support that does not give you the sense of wearing a harness and which is not cumbersome or binding. Does it sound too good to be true? We stand ready to prove each claim.

Every Brooks Appliance is made to measure. We require a complete report of your case and build the Appliance to fit you. Comfort means a lot, but the really important part of our rupture support is the Automatic Air Cushion. This cushion is designed to hold back the rupture not by force but by gently drawing the weakened and separated muscles together so the opening is closed in a natural way. With each body movement the Automatic Cushion furnishes a gentle massage gradually strengthening the weakened parts. The soft rubber chamber of the Air Cushion, the only part that actually touches your body, snaps out of the holding disc with just the pressure of your finger tips. This insures cleanliness, for the cushion can be washed in hot water as often as you wish. The Brooks Appliance is never sold in stores and can be obtained only from us direct.

Read the Booklet for other interesting facts, then fill out the Measure Blank and send correct remittance. The guarantee in red at the bottom of this letter is clear and plain, and is made for your protection. We want to help you get relief from this troublesome condition. Will you let us?

Yours very truly,

HCB*E1

BROOKS APPLIANCE COMPANY

THE BROOKS GUARANTEE—On receipt of the price we will make to your measure and send any Brooks Rupture Appliance you order—together with full directions for use. You have the privilege of keeping and testing the appliance in actual daily use for any length of time up to ten days from the date you receive it. Should we, for any reason, fail to give you perfect satisfaction through proper fit and proper support of your rupture, we pledge ourselves to accept the return of your Appliance and refund the full amount you have paid.
