

Thursday eve;

May 20, 1943

Dear Ellis:

I was very glad to get your letter yesterday and too learn that you all were O.K., hope this will find you all well, I am about the same as usual.

Glad that you all got a good rain as it was needed pretty bad, sure would like to be down there now as you say everything is looking pretty good. I was sure suprised at there being little tomatoes on the vine's this quick, sure hope you all have good luck with them, and that Corn must be growing very fast as some of

it is about ready to tosted, sure
hope it is a good Crop year as
people needs to make a good
Crop and everything is so
high that you have to buy.

I know you all will be glad
when school is out as you need
Denard so bad too help in
the field. Say do you think
you will make lots of irish
potatoes? hope so as I think they
are a pretty good price. Have you set
out any sweet potatoes yet? it would
be nice if you could raise a few of
them to sell as they are a good
price too.

Oh yes, what went wrong with
The Care? you never said in your
letter, it sure is expensive. Guess

You must have got a pretty good price for that yearling as he was not so very large.

Sure glad you got reclassified, hope they don't bother you anymore now. I was so surprised at them still wanting to draft you. I think we will make it O.K. if they will just let you stay there on the farm. I didn't know that there was a "Class II C," as you said that is what they put you in for farming, so I guess you can't do anything but farm now.

Have you see Alford lately? I wonder why he don't write me, guess he is too busy to write. I got a letter from Aaron a few days ago, he is still in Oklahoma. He said

They sure had been having the rain.

Oh yes Emma Dean call me on the phone last Sunday night, as she was on duty, we talked a good little while and didn't cost us anything. She said she talked to Dorthey late that evening. Do you all ever see any-thing of Cossie's folks? I haven't heard from them in a good while. How many acres of Cotton did you plant? Don't guess Emma will get there in time to help Chop any if she don't get there untill after June 13th as she said that was when her vacation would start. Oh yes, guess you all are eating fried Chicken by now C. Say Ellis what size slipper's do you

ware? I found a real good pair,
they are size 9. I believe you can
ware them as they are wide width.
I can get them on but they are a little
small for me. I think I will send
them too you and you can sell
them if you can't ware them.

Have you planted the peanuts
yet and how many acres are you
going to plant? Do you have
plenty of seed pease? it would be
nice if you could raise a few
bushel to sell. How are those
tomatoes doing there by the
pond that we set out in the
mud? I bet they are not as pretty
as the other's. Mamma you and
Dennard better ans my letter.

Ans soon,

Love,

Dennard.
