They sure are pretty, they built
a screened in Pen for

2 Everett came in from Hugo Okla. last night, said they had some work to do here, then they were going back to Okla. & finish that job there, would take them until the first or longer.

Will Worthey said they desired Ed again, sure hope they don't change him again.

I was almost jobless

Monday, he wanted me to work all night, I told him I would quit first, then when he saw I really would he told me to keep on like I was & he would try to give me a raise. I could sure use it as I had me a fur coat put in the dresser, I'll pay it out by the week. Well don't know any news so will go take care of your letters & write soon Love Lillie
