Dear Mama and Ellis,

Hope you all are all right. This leaves me fine but a little bit sleepy. Have been expecting a letter from you all but did not get it so maybe you think it is my time to write. I heard from Dorothy and Leonard this week and Dorothy said she was going to make me a jumper and her one out of the same material. Lillie is going to send her that material for Wm. H. Something so when she does I will send you my pancake makeup as I can't use it any more. Also those handkerchiefs that we wore.

I went to the skin specialist to see about getting my skin cleared up and he is treating me with epray and put me on a diet. I told Dennard about that. He gave me a prescription for some lotion too. He is a real nice doctor and calls me Youngster all the time.

Guess what I made this week?
\$98.00 before everything was
taken out. And that ain't
exactly to be sneezed at either.

I guess you all are through
gathering and forgot about it.
Maybe I can get a weekend
off sometime in Nov. and
make that do for my
Christmas visit. This will
make my third year not
to have been at home on
Christmas eve.

Well answer when you
have time.

Love,
Emma Dean
