Dear Dennard,

Was glad to get a nice long letter from you and it was somewhat of a surprise too.

I want to know, has Christine and Betty moved back?

Boy you should see my dark glasses. They are dark green and I also have a Crown on my front tooth. I doubt if you will know me at all when I show up down there which may be in the near future. I have had so much bad luck this month that I doubt if I can do anything except go to the doctor. Am due for another treatment on my face tomorrow.

Tell Howard that when he thinks he is big enough to boss some body to come up here and I will tend to him. Don't let Dorothy spoil him whatever you do.

Why don't you get on the basket ball team? Aren't you old enough? When they get you on it they will start winning games won't they?
over

Paper is scarce or I should say
lastly so here goes on this side.

Wish they had Mrs Nichols
up there to teach you^{all} that
Commercial Geography. She is the
only one teacher that is really
thorough in her work I think.

Have they took that
theater down in Timpson?

My radio is still in the
shop so I dont have any Company
except my roommate.

Keep on making good grades
and answer real soon.

Love,
Emma Dean
