

Monday Night:

Mar 13, 1944

Dear Home folks:

Just a few lines as I am fixing to send a box of junk and thought I better write you so you wouldn't be disappointed. Hope this finds you all O.K., I am about the same as usual.

I think that is a good book you can read and I thought Ellis might find a use for the rope. Say Ellis you can give that to bag Co to Alford if he wants it. Say Den you can make a big ring out of that big nut and keep it for a souvenir and you all can use those hinges and that brass door handle. Those wood blocks is a puzzle. I think the way you work it is that you put the big block in one corner of the box and slid it too the opposite corner. Hope you get it O.K.

Does it still rain lots down there? hope you are having some dry weather now. How is the tomato plants doing now? O.K. I hope. I attended an all day singing at town yesterday, sure did enjoy it as they had some fine singing. They serve dinner at the Church. Guess you all got my letter by now, take care of yourselves, and soon. Love Denorde
