"MEMBER ASSOCIATION OF NORTH AMERICAN DIRECTORY PUBLISHERS"

Introduction

C. B. PAGE DIRECTORY COMPANY, Publishers, present to subscribers and the general public, their second edition, this 1946-47 edition of the Lufkin-Keltys and Herty, Texas City Directory.

Confidence in the growth of Lufkin's wealth, industry and population, and in the advancement of their municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Lufkin to the world.

The enviable place occupied by C. B. PAGE DIRECTORIES in offices, stores, libraries and homes, has been established by rendering the best in directory service. With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Directory will fulfill its mission as a source of authentic information pertaining to Lufkin.

COMMUNITY PUBLICITY

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Lufkin, for business men, everywhere, realize that the city directory represents a community as it really is.

THE LUFKIN DIRECTORY LIBRARY

Through the courtesy of the publishers of the Lufkin City Directory, a Directory Library has been recently established in the offices of the Angelina County Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

Getting to the bottom of things, it must be realized

Getting to the bottom of things, it must be realized that the basic economy of Lufkin and Angelina County springs from the growth of timber—four kinds of pine, and many varieties of good hardwoods. 83% of the area of Angelina County is covered with dense timber. Over 50% of the county's \$25,000,000 worth of goods manufactured annually, are timber products. Whether it be

massive logs headed for the pine and hardwood mills, or small cuts less than 20 inches in diameter prepared by the farmers for the paper mills, wood growth contributes directly or indirectly to each of the 33,000 inhabitants of the County and the 17,500 people living in Lufkin's metropolitan area.

Again, these same timbered areas, rolling hills and an abundance of rivers, creeks, and lakes, furnish much recreation in the form of squirrel, fox, deer, and bird hunting; swimming, boating, fishing and camping. Nowhere in the Southland are found more beautiful soft-green panoramas, nor a greater abundance of flowering plants—especially, dogwood.

The entire South owes much to the people of Lufkin. It was the people here, acting on the information developed in Georgia, that led to the establishment of the first and still the only newsprint mill in the Southern pine belt. Proof that good newsprint can be made from pine is the present construction program increasing the production of this chemurgic article by 100%. Lufkin people also showed that a small business engaged in the repair of sawmill equipment could grow into two giant foundries—one of them the only malleable iron foundry in the South — the other a stable industry turning out oilfield pumps and motors, trailers, and other articles. V-J Day found the County expanding its industries instead of going back to pre-war levels.

Going back to timber again, Angelina County boasts the largest woodworking cen-

ter in Texas—Diboll. Due to better timber growth practices, the sawmills are turning out more lumber than anytime since 1915. 79,000,000 board feet or enough to build 3,900, five-room houses annually are produced. An equal number of board feet of pulpwood produces over 100,000 tons of paper products. Complimentary industries to the above, and other chemurgic enterprises may be expected to develop here very rapidly. From 1940 to 1945, the value of manufactured goods increased from \$6,000,000

to \$25,000,000. Current expansion will increase this figure to more than \$31,000,000. Lufkin is the headquarters of the Texas Forest Service in East Texas, being the exact geographical center of the 36 heavy timber producing counties of Texas. This includes a modern wood-use research laboratory and fire protection headquarters. Lufkin is also the home of the Texas Forest Festival, the only exposition in Texas dedicated to the development of timber resources.

Located in the Southern part of the county is part of the Angelina National Forest consisting of 67,000 acres.

Near Lufkin is the Pasture Improvement Station, a branch of the Texas Experiment Stations, dedicated to improvement of both pasture grasses and livestock.

Lufkin's strategic location will lead eventually to the fullest development of all kinds of transportation, including air and water. As a distributing center, it has the advantage of having 5½ million people living within a radius of 200 miles and including such cities as Houston, Austin, Waco, Fort Worth, Dallas, Tyler, the East Texas Oil Fields, Texarkana, Shreveport, Monroe, Alexandria, Lake Charles, Orange, Beaumont and Port Arthur.

Among all this, the forces of Angelina County are quietly going about making it a fine place in which to live, with beautiful homes, excellent churches, schools and parks. The athletic teams of Lufkin are respected by every high school in Texas. Lufkin is one of the best known cities of its size in the Nation.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individual engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

To keep your car **RUNNING RIGHT** and **LOOKING GOOD**

Your Humble Service Station man is more than a salesman of fine motor products like Esso Extra Gasoline and 997 Motor Oil. He is an expert in the business of keeping cars

looking and running their best. Stop at the Humble sign for service regularly and you'll agree with motorists who say . . .
"The Humble salesman is my car's best friend."
