Principal's Message

To the Students of Lufkin Junior High School:

The Junior High School years are important ones in your educational programs, for during this period you are beginning to think more for yourself and develop your own individuality. The decisions made, habits formed, and attitudes acquired along with your regular school work are going to be strong factors in determining the degree of success the future holds for you.

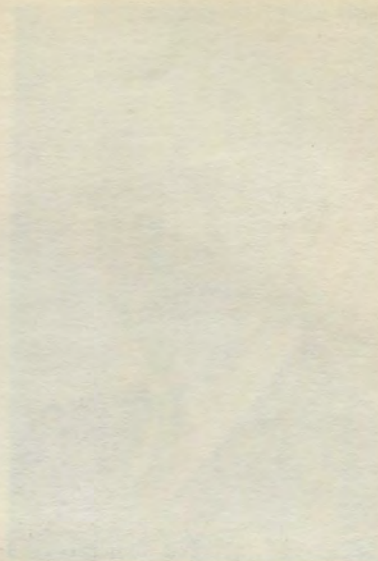

Those responsible for your education are endeavoring to offer you the best advantages possible in order that you may have a chance to develop a strong, well balanced personality. Through participation in clubs, sports, and auditorium exercises, you may develop the cooperative spirit, character, leadership, and loyalty that are so vital in successful democratic living.

These are challenging years, and may we all dedicate ourselves to the task of making Lufkin Junior High School the best, so that it may inspire the best in us.

Sincerely,

A. W. PHILLIPS

Message

To the Students of Burke's Junior High School:

The Junior High School years are important years in your educational program. For during this time you are beginning to think more for yourself and develop your own individuality. The teachers here, while trained, and experienced, are not only with you, but are also going to be strong factors in determining the degree of success the future holds for you.

These responsibilities for your education are demanding to offer you the best advantages possible in order that you may have a chance to develop a strong, well-balanced personality. Through participation in clubs, sports, and extracurricular activities, you are developing the cooperative spirit, character, leadership, and loyalty that are so vital in the central American living.

These are challenging years, and may be all that will be yours to the task of making Burke's Junior High School the best, so that it may inspire the best in you.

Sincerely,

A. W. Miller

Treasured Memories

Your yearbook is a store of treasured memories. The oft repeated thrill of recollection which accompanies each new search through its pages will many times repay you for the care and consideration which has gone into its creation.

We are proud of the part we have had in the production of this book. It indicates the wealth of ideas and ability which have made possible the long record of our school annual achievement.
