FOREWORD

1966:

The year of expressions
In London,
In Berkeley,
In Alabama,
In France,
In Viet Nam, and
In Hudson.

The 1966 Hornet:

The Hudson book of expressions
Of action, because it was fun,
Of new ideas, because they were so abundant,
Of unrest, for it spread quickly,
Of failure, because it was necessary, and
Of peace, for it was so rare.

The 1966 Hornet:

You.

Mathematics is used by everyone

Copied from an original at The History Center, Diboll, TX 2025:007 www.TheHistoryCenterOnline.com

Sometime during every day, almost everyone uses some form of mathematics. Several courses in this field are taught at Hudson. Arithmetic is the science of numbers of the art of computation. Algebra is the science of treating the properties of numbers by means of general symbols. Geometry deals with figures in space. It is the branch treating the measurement and relationships of lines, angles, planes, and solids. Advanced Math is a form of college type preparation; It gives the student a chance to learn what to expect in college.

Mr. Rawlinson finds that taking time out of the heavy schedule for a bit of discussion with his Advanced Math class can be rewarding.

This Geometry class discovers that sometimes studying is the solution to many of their problems.

Mr. Rawlinson uses many instruments such as the protractor in teaching his Math and Physics classes. He is one of the sponsors of the Senior Class. 1 year.

Methods of Science solve everyday problems

Civics and Social Studies

In studying Civics we hope to be able to understand and cope with the problems of the modern world. We have responsibilities as citizens to be active if we expect to maintain the standard of society to which we are accustomed. We learn to respect the rights and privileges of our fellow men, so that we can enjoy our own ideals. We learn more about the democracy in which we live and hope that we are better citizens of tomorrow for having studied in this class today.

Connie Alsbrooks longs for the services of a C.P.A.

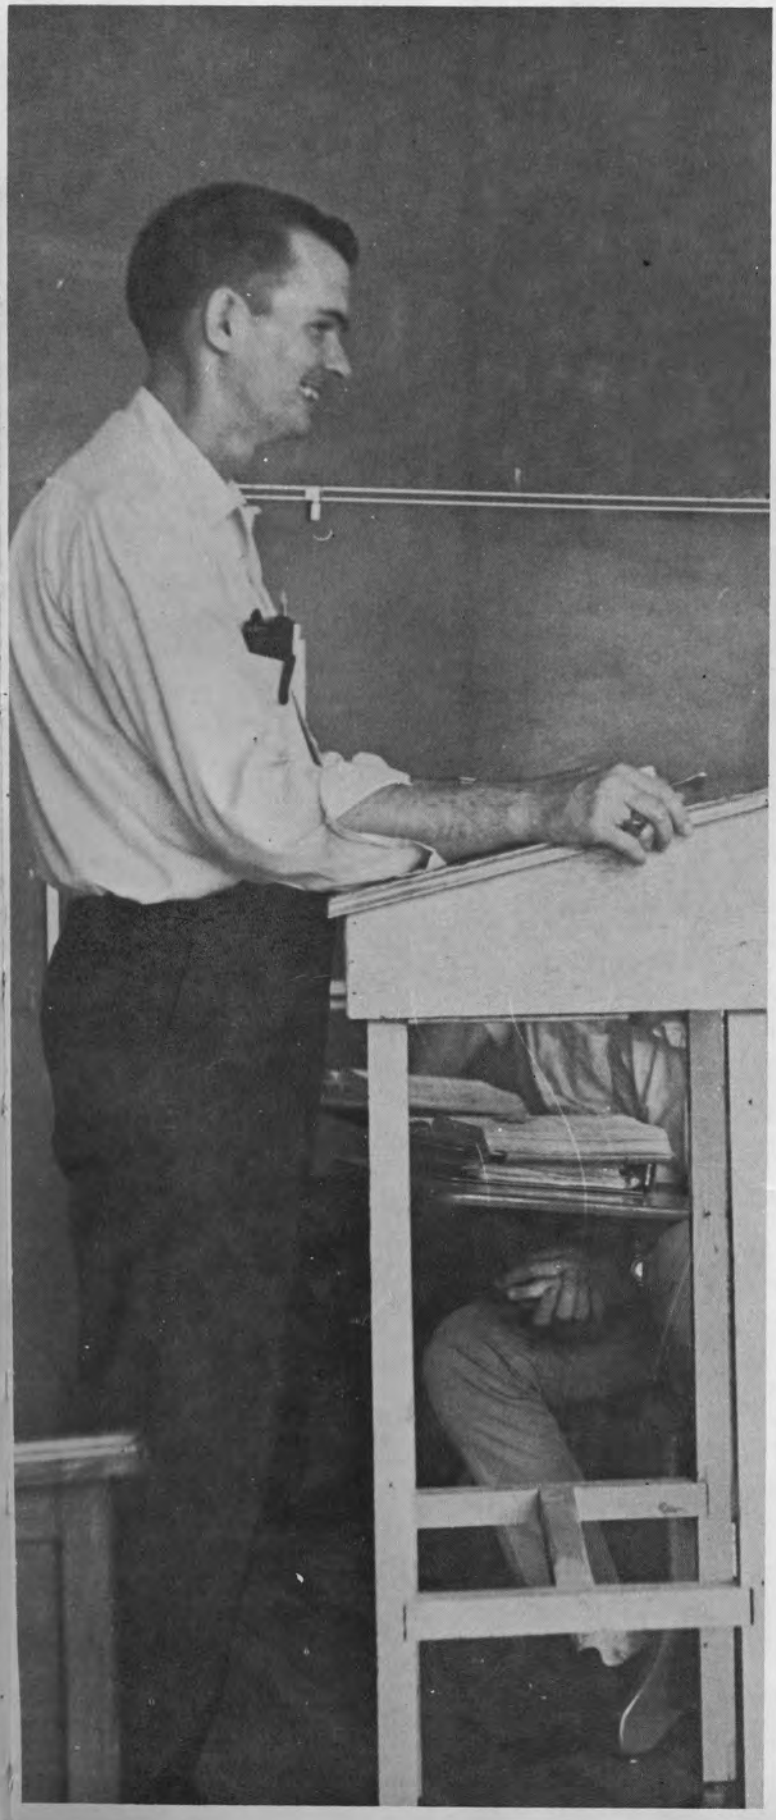

Mr. Carroway makes much use of the blackboard in explaining tax forms to civics students.

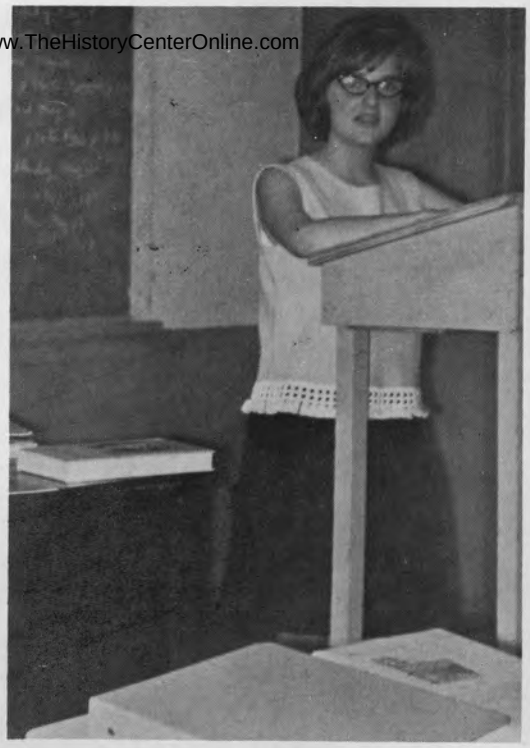

Leroy Melancon lends a helping hand to Mike Alexander who is trying to compute his income tax.

Hey Gang,

Hornets thank the pep squad and, on the front battlelines, Becky (head cheerleader), Barbara, Cheryl, and Beth for their devotion in "following the boys" this year.

Everyone appreciates their talent, their vitality, and their ability, when the chips....and the scores are down, to say:

Let's YELL

CLASSES

Boy, what a mixed-up group of sponsors . . . Boy, what a crazy class . . . After the Student Council and FHA meetings today, the classes will meet the remaining ten-minute break to elect officers and favorites . . . Let's see, it says here that my ring size is 6, but just to be sure it fits, I'll order a 10. They never fit anyway . . . I passed bookkeeping; I'm gonna graduate !!
