The Lumberjack 1977

Volume 33

Foreword

The Lumberjack Annual Staff takes great pleasure in presenting to you the 1976-77 edition of the Diboll Schools Yearbook. Our task has not been an easy one, but we have enjoyed our year together. We have learned to work as a team and have come to appreciate a great many people.

We have attempted to portray in pictures the most memorable moments of your year at D. H. S. That year is now history. You made it—we have tried to preserve it.

The Diboll Lumberjack
Annual Staff

The Lumberjack Yearbook Staff proudly dedicates the 1976-77 yearbook to Mrs. Mary Ingram, High School Counselor. She is a friend and confidant to all our students. She has encouraged many a person to "keep on keeping on" and stay in school. She has helped students to understand teachers and teachers to understand students. Mrs. Ingram, we appreciate you.

Superintendent Mr. Don Robbins

Your contributions in this first year of the tri-centennial won't be earth shaking; however, the foundations for greatness have been laid, and you will be called upon to maintain society's well-being through your continued efforts. In a world ever growing closer together and with interplanetary travel soon to be realized, you will play vital roles in your universe of today and tomorrow. The 3rd 100 years should prove to be as eventful and exciting as the past 200.

You have been privileged to be exposed to a multitude of choices flowing across the giant horizon of education today. The decisions you have arrived at will help in choosing from the multitude of opportunities awaiting you.

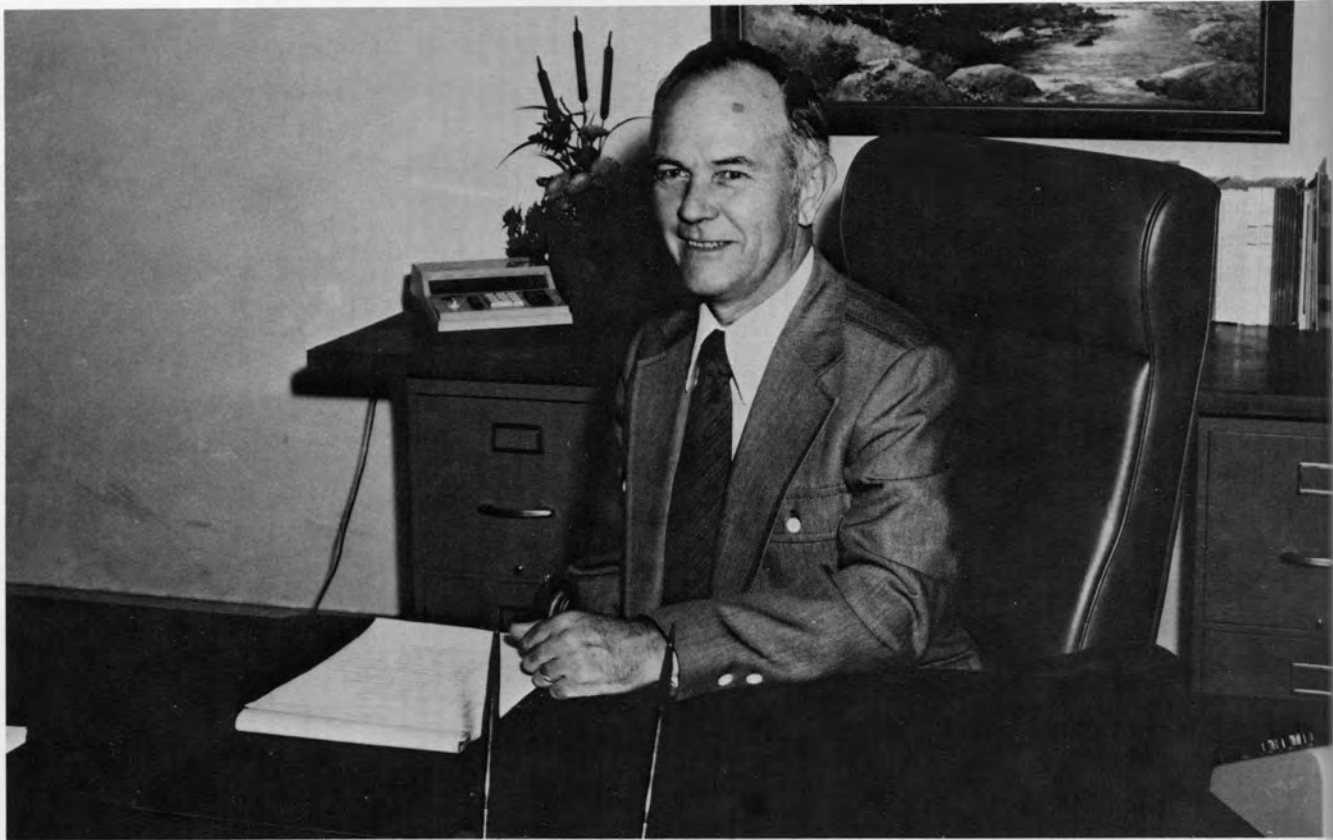

Select wisely and well. Adopt a positive attitude and a respect for work, and your efforts will be duly rewarded.

Good luck to all of you who are closing out your high school careers and embarking for further education or a job station. Thank you for a job well done!

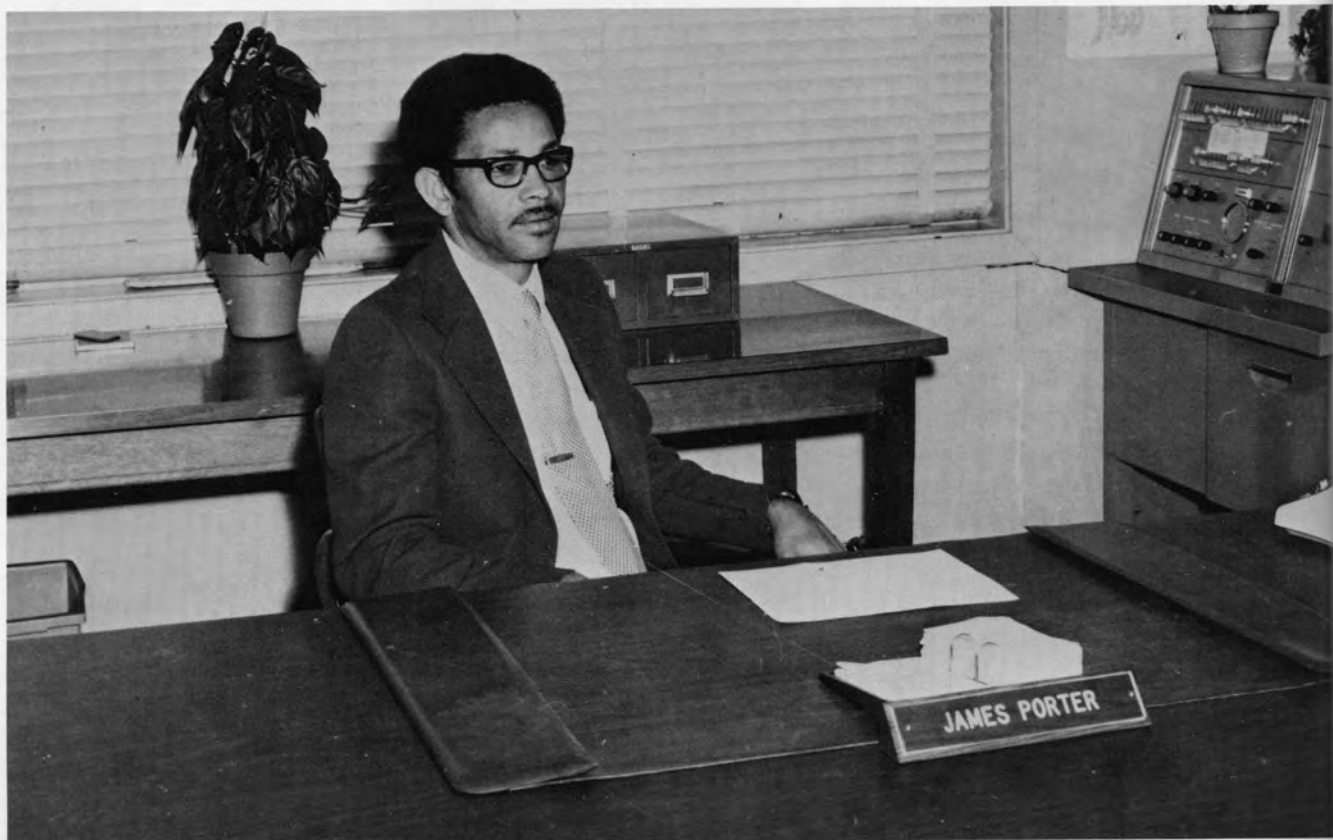

Sincerely,

Donald E. Robbins

SAVING TIPS on electric air conditioning

Central Systems

1. Set thermostat on 78°, or higher.
2. Have equipment checked seasonally by qualified serviceman.
3. Check filter every 30 days. Clean or replace when dirty.
4. Keep furniture, draperies away from air outlets and returns. Clean grills often.
5. Close draperies and blinds to keep out sunlight.
6. Keep fireplace damper closed.
7. Proper home insulation keeps heat out, cuts energy use.
8. Weatherstrip doors and windows. Caulk cracks.
9. Keep windows closed. Open outside doors as little as possible.

Window Units

Follow above suggestions, plus these:

10. Buy units with *highest* "energy efficiency ratio" (EER). If EER is not on sales tag, ask for it or figure it yourself. Divide "wattage" into "BTU" capacity.
11. Place unit where it'll get as little direct sun as possible.
12. Aim air outlets at lower half of doorway to next room to allow warm air from that room to enter at the doortop for recooling, recirculation.

If you would like additional information on conserving electricity, call the Customer Service Representative in the TP&L Office.

Your Future And Ours

Our young people represent more than just a generation. To us, students mean the future; our hopes for the coming years rest firmly on the shoulders of the young men and women of our community. Whatever will be accomplished in this world in years to come is the responsibility of our youth. Because you **are** our future. And we support you.

SOMETIMES, YOU CAN'T SEE THE TREES FOR THE FOREST

Temple is in the wood products business, so we harvest a lot of trees every day. And with these trees we make everything from lumber to insulation siding. But we have never forgotten that we aren't the only ones who need trees. They are important to the ecosystem, our wildlife depends on them, and they are beautiful things that make all our lives richer. So, we at Temple have a simple but vital commitment - to always replenish our forests.
