LUFKIN, TEXAS

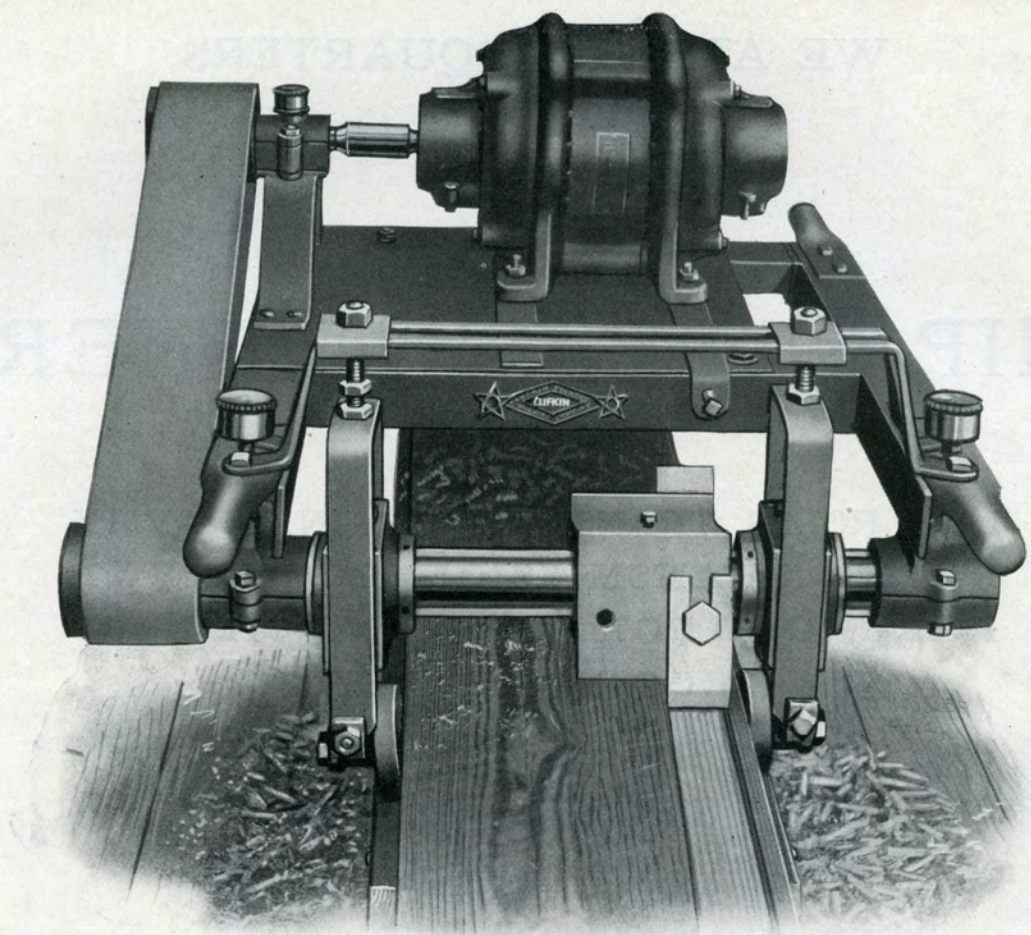

"BEVELING"

The Cobb Dubbing Machine is a Universal Portable Planer, for straight "DUBBING" the flat bottoms as well as the inside curved ribs and upright sides of the ship simply by nailing 1" x 3" guide strips as shown. Easily adjusted for light or heavy cutting with knives up to 9" for timber work and twelve inches for light floor or deck cuts.

The machine can be set to bevel at almost any desired angle as shown.

Can also be turned upside down, and used between a set of rolls as a planer for beveling or straight surfacing ship planking or decking.

RABBETING

Machine Made in Three Sizes.

MACHINE NUMBER	WIDEST TIMBER	MOTOR H. P.	SHIPPING WEIGHT		PRICE	
			A. C.	D. C.	A. C.	D. C.
1	32"	3	510 lbs.	700 lbs.	\$580.00	\$660.00
