Bertha Mann

2215 N. Locust St
Denton, TX 76201

May 10, 1962

Dear Carlyle,

I just got the picture last night. Ola Johnston brought it to our PEO meeting. I will send it on even though you may have left for the convention. I am sure whoever is taking care of your mail will send it on to you.

Ola said that she was sure it was taken in the spring of 1912. That is the year she (Ola) graduated at Huntsville, and she said about five of them had their pictures made just before she graduated and exchanged them. She has treasured this one all these years, she says, but that she feels now that Bertha's children and you should have it. She said she thought Bertha was about 17 or 18 at the time it was made. You would know how to figure that out I am sure. I think it is a dear picture of her.

I was sorry to hear that you had been having so much trouble since Christmas with two stays in the hospital. I am sorry the doctors can't get that high blood pressure under control. I do hope you are having better days, now, and I certainly hope you are able to go to the convention because I know you enjoy them.

The plan for going to be with Elizabeth is, I am sure, a good one. I know she worries about you being alone at home and that you will be a most welcome member of her family is without question. I am ashamed to admit it, but I have forgotten Elizabeth's and Lloyd's name. I wish you would tell me. I don't want to loose contact with all of you, you have been a part of my life for too long now. Who knows, one of these days as

I roam about I might be near Clinton, and
I might call her up and say hello.

When your plans are complete as to what you are
going to do, keep me informed. Give my love
to Elizabeth and Herbert and I do hope this
finds you feeling much better.

Sincere good wishes, always,
