College Scholarship Plan

FOR CHILDREN OF EMPLOYEES OF LUFKIN FOUNDRY & MACHINE COMPANY FROM THE LUFKIN FOUNDRY & MACHINE COMPANY Educational and Charitable Foundation

EDITOR'S NOTE: *The following information about the College Scholarship Plan of the Company's Educational and Charitable Foundation is being published exclusively by THE FOUNDRY ROUNDUP. It is suggested that parents file this issue of the magazine in a permanent file so that it may be referred to in the years to come. It is not now planned to publish this information in separate booklets or other media.*

Number of Scholarships

Three scholarships are awarded under this plan each year; however, a lesser number will be awarded if there are fewer than three eligible recipients.

Students Eligible to Apply

A high school student who has a parent who has been an employee of Lufkin Foundry and Machine Company in its Lufkin, Texas, Office or Plant for at least one year when the student registers for the senior year in high school, is eligible to apply for this scholarship. A student whose employee-parent becomes totally incapacitated, retires, or deceases at any time during such student's tenure in high school is eligible to apply provided the parent had been an employee of Lufkin Foundry for at least two years prior to such incapacity, retirement or decease. A student whose parent is an officer of the company at the time such student registers for the senior year in high school is not eligible.

Purpose of Scholarship

The purpose of this scholarship is to express an interest in the families of Lufkin Foundry employees and to help create greater interest in higher education.

When To Apply

The time to apply for a Foundation scholarship is when the student registers for the senior year in high school.

How To Apply

A student can apply for a Foundation scholarship by completing an application form and filing it with the Angelina County School Superintendent, County Courthouse, Lufkin, Texas. The application form with a 9th, 10th, and 11th grade transcript attached must be filed with the Angelina County School Superintendent not later than October 1, following registration for the senior year in high school. An application form can be obtained from the student's principal or from the Angelina County School Superintendent.

High School Grade Required

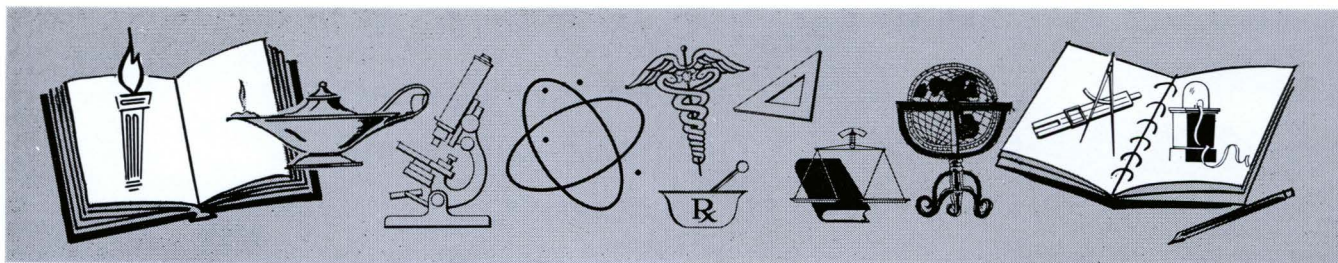

To be eligible to be considered for a scholarship, a student must graduate from an accredited high school, and the student's grades for the four high school years must average at least 80.

College Board Entrance Test Required

Not later than January 31, in the senior year of high school, scholarship applicants will take the Scholastic Aptitude Test of the College Board Entrance Examination. Not later than April 1, applicants will file with the Angelina County School Superintendent (1) a report of the results of the Scholastic Aptitude Test, and (2) a transcript of the first semester grades of the senior year in high school.

Scholarship Committee

Each year the Foundation will appoint a Scholarship Committee which will evaluate the qualifications of the applicants and select the winners. The Angelina County School Superintendent will not be a member of the committee, and no officer or employee of Lufkin Foundry will be a member of the committee.

Qualifications To Be Considered

Each applicant will be graded on the following qualifications:

- I. SCHOLARSHIP IN ITS BROADEST SENSE
 - A. Grades made in high school
 - B. Grades made on College Board Entrance Test
 - C. Probability of success in College
 - D. Probable utilization of college education
- II. CHARACTER
 - A. Ambition
 - B. Reputation
 - C. Fairness in judgment
 - D. Respect for rights of others
 - E. Personal stability
- III. CITIZENSHIP
 - A. Health
 - B. Personality
 - C. Disposition
 - D. Qualities of leadership
 - E. Cooperation with fellow students and teachers
 - F. Willingness to be of service

In arriving at the student's over-all grade, the grade made upon each of the three above-listed qualifications will be weighed as follows:

Scholarship 65%, Character 20%, and Citizenship 15%.

Announcement of Awards

The Scholarship Committee will receive from the Angelina County School Superintendent (1) on or about October 1, the application forms and (2) on or about April 1, the results of the Scholastic Aptitude Test and transcripts of the first semester grades of the senior year in high school. Based upon this information, and such other information as may be obtained, the Scholarship Committee, prior to the end of the school year, will determine which of the applicants are to receive the scholarships. The Scholarship Committee will then submit the names of the scholarship recipients to the Lufkin Foundry Foundation, which, in turn, will make appropriate announcement.

Students Select College

Scholarship students may choose to attend any accredited college or university in good standing located within the State of Texas. Upon receiving notice of a scholarship award, the student should contact the Secretary of the Foundation, located at the office of Lufkin Foundry and Machine Company, for further information and instructions.

Amount of Scholarship

Each scholarship is for a total of \$2,000, payable \$500 per year for four years, provided the student remains eligible.

How Scholarship Is Paid

A \$500 payment is scheduled to be made at the beginning of the first semester of each of the four school years. The payment is made by check to the college or university selected by the student and approved by the Foundation.

Cancellation of Scholarship

If a student attending college on a scholarship fails to maintain satisfactory grades, or misses a fall or spring semester for a reason other than illness or military service, the scholarship will be cancelled and no further payment made. An absence of two years from college, regardless of the reason, will terminate eligibility. A college to which funds have been advanced for a student who subsequently becomes ineligible should return unused funds to the Lufkin Foundry Foundation.

Awards Made Only To Eligible Applicants

An award will be made only when there is an eligible applicant, and any of the three annual awards that are not made due to the lack of an eligible applicant will be cancelled and will not be carried forward.

Scholarship Creates No Obligations

The awarding of a scholarship does not constitute an offer of employment, and the acceptance of a scholarship does not create any employment obligations. Acceptance of a scholarship award in no way obligates the recipient to the Foundation nor the Foundation to the recipient.

Duration of Scholarship Plan

The Lufkin Foundry and Machine Company Educational and Charitable Foundation believes that this scholarship plan may be continued indefinitely. Yet, it also realizes that conditions may change in the future, and therefore, reserves the right to modify or terminate the Plan, in whole or in part, in such manner as it may determine.

ROUGHING IT-The EASY WAY

By STEVE ELLINGSON

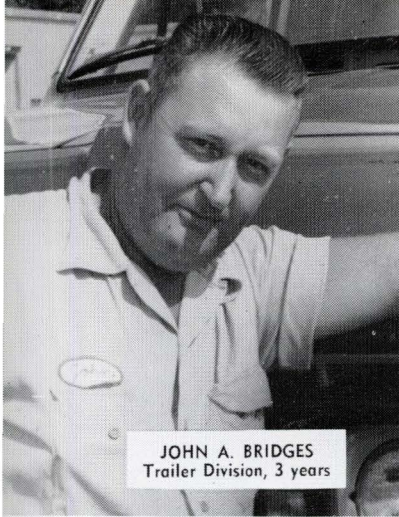

If you and your family embark on a camping trip this summer, will it be a joy or a fiasco? That depends on two things, essentially—attitude and equipment. Don't jump into the wilderness without a little preparation. Take a week-end before you start and build a camp kitchen. Nothing pays bigger dividends in pleasure once your trip is under way. Like all armies, campers travel on their stomachs . . . cooking is the one department that shouldn't be neglected.

The camp kitchen shown here has numerous benefits. It not only has compartments for your cooking utensils, canned goods and food containers, but also a convenient and well planned place for your camp stove. The top leaves open to make a dining table for as many as six persons. Real handy too, because everyone can sit around the unit where food and

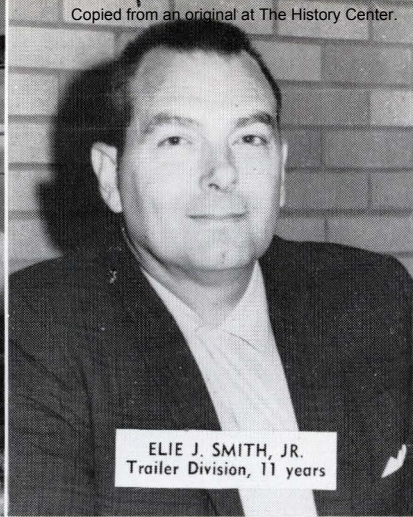

supplies are all in the middle and within everyone's reach. There are handles on each end, which make it easy to carry. Since the principal material is one-quarter inch plywood, it's strong yet light enough for youngsters to carry. It folds to a compact unit only 28" wide, 39" long and 9" high so as to fit in the trunk of your car or in the back of a station wagon. It's strong and will withstand all kinds of wear and tear and may be used year after year. This pattern also shows how to make the folding camp stools.

To obtain the camper's kitchen and stool pattern number 336, send \$1.00 by currency, check or money order to:

CREDIT UNION NEWS

BY CHARLEY HAMILTON

The future is yours. The degree of happiness, health and financial security you will have largely depends upon the way you handle your present finances. We need to guard our credit as one of our most valuable assets. We need to save regularly a portion of our income for the future.

There are many important reasons for saving at your Credit Union, some of which are:

1. To face emergencies—and they always come.
2. To simplify borrowing, whenever you want credit.
3. To earn dividends as an owner and investor in Credit Union.
4. To teach thrift to children through savings accounts.
5. To help other members obtain the loans they need for many purposes.
6. To be independent after retirement.
7. To get additional insurance benefits through life savings and loan protection insurance provided by Credit Union.

Two insurances are provided to qualifying members—one is Life Savings Insurance up to \$2000.00, which will match your savings up to \$2000.00 if deposited before the age of 55 regardless of age at death. Reduced amounts are provided between ages 55 and 69.

Loan Protection Insurance covers loans up to \$10,000 and is given to qualifying members. Should total disability occur before age 60 or death before age 70 the balance of the loan will be paid by the insurance. It is always good to know that a widow would not be burdened with payment of the note. LFM Federal Credit Union pays the premiums on both of these policies to give you insurance security.

Just suppose you left the family picture while your children were still

Shop Talk

Congratulations to the KENNETH BURNETTE's on the arrival of a baby boy born, June 23, and weighing nine pounds and one ounce. Kenneth is employed in the Machine Shop, first shift.

Guynne, Tammy and Danny Lollar plan to enjoy the sights at Six Flags Over Texas when their daddy, R. B. LOLLAR, takes his vacation. Mrs. Lollar will be along too, and they also plan to visit Lake Murval. R. B. is a Security Guard at Gate 7.

Our deep sympathy to A. A. SUTTON, whose mother died recently. A. A. is employed in the Machine Shop, second shift.

LES NEYLAND, Welding and Structural Shop, first shift, recently returned from a vacation in Florida.

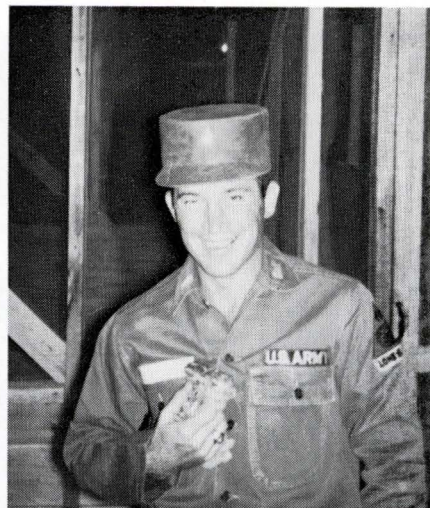

We are sorry to hear that E. A. MIXON has been in the hospital for surgery. E. A. is employed in the Cleaning Department of the Foundry on the first shift.

Wedding bells rang for J. W. HODGES on Friday, June 17. Best wishes to J. W. and his bride. J. W. is employed on the second shift, Core Room of the Foundry Department.

We were sorry to learn of the death of Mrs. JAMES FULLER's grandfather. James is employed in the Trailer Division, first shift.

young. Your family, then, would have lost a husband, a father, an income and perhaps you owed a large note at LFMFC. If you were under 70 at the time of your death the loan would be paid by CUNA Mutual Insurance Society plus any interest due for the past six months. CUNA Mutual would also match dollar for dollar all money deposited in your share account prior to age 55 if still on deposit. An additional amount of coverage would be paid at a reduced rate on money deposited between ages 55 and 69. Insurance coverage never grows less on shares already saved, as long as those shares remain on deposit, and life savings coverage does not cease at age 70 on money already saved.

SAVINGS + DIVIDENDS + LIFE SAVINGS INSURANCE = SECURITY

BOBBY CONNER holds a Texas jack rabbit in the "good old days" at Fort Hood

The ROY JOE BAILEY's have a new baby at their house. Roy Joe works the first shift in the Commercial Gear Department.

LEAMON BULLOCK, Assembly and Shipping Department, has been on a vacation to Washington, D. C.

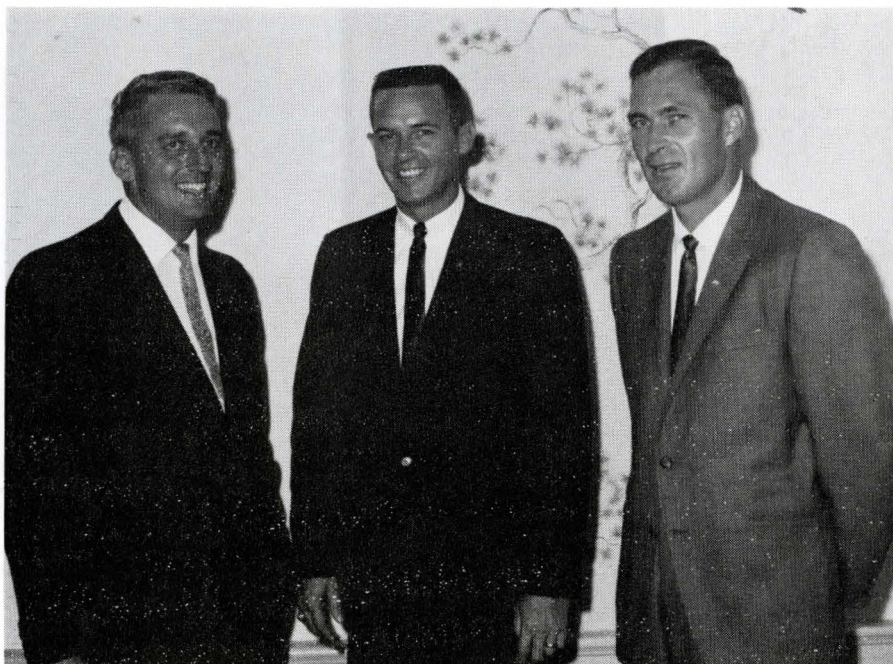

CHARLES BROOKS, Core Room of the Foundry Department, first shift, has been off for surgery. We hope he will have a rapid recovery. Charles is a schoolboy and the son of C. P. (JACK) BROOKS, Machine Shop.

From our "Remember When" department we have a picture of BOBBY CONNER, Trailer Parts Department. JAMES CARLILE, Welding & Structural Shop, brought us the picture of Bobby taken "way back" in July, 1963, at National Guard camp at Fort Hood, Texas. Bobby is a member of the 386th Engineers, 49th Division, of the Texas National Guard, and James was also a member of that group then. Bobby is pictured holding a small West Texas jack rabbit which he caught. Bobby, who now ranks as a captain, is preparing to spend another two weeks this month at Fort Hood.

The hike in Social Security payments by you and by Lufkin Foundry and Machine Company can be reviewed in many lights by different people. Its costs are considered "reasonable" from one extreme to "sky-high" to the other.

For example, the following was taken from the "ARISTOTALK," a publication of the Copperweld Steel Company in Warren, Ohio:

"A worker who starts paying into

NEWLY installed Lufkin Jaycee President, Jim Mewbourn, center, with State Jaycee Director Bob Sheehy, left, and Bob Dudley, right, National Jaycee Director

Social Security at age 18 will have contributed and have contributed for him by his employer, including interest, a total of \$84,300 by the time he reaches retirement age. If he lives to be 79 he will be paid \$25,802 after he reaches retirement age.

For the same amount of money (\$84,300) an annuity could be purchased from a private company which would pay \$634 per month. Under the Social Security program the maximum

monthly benefit is \$312. Not only is it mighty expensive protection, but is a case of no one having a choice either."

From Washington comes this interesting information. American business, American workers and their families are finding that even when they are earning more they are getting less, according to the Chamber of Commerce of the United States.

Today it costs \$1.33 to buy what

sold for \$1 in 1950.

One dollar saved in 1950 has lost 25 per cent of its purchasing power. It is now worth only 75 cents.

Food prices are up 32 per cent; rent, up 39 per cent; public transportation, up 89 per cent; and clothing, up 12 per cent.

The Government can curb inflations by eliminating all low priority spending, keeping the supply of money and credit in line with the quantity of goods and services, and balancing the budget, with a surplus in times of prosperity.

JIM MEWBOURN was recently installed as president of the Lufkin Jaycees at an Installation Dinner-Dance on June 25, at the Angelina Hotel. Jim, who served as Secretary in the Jaycees last year, also received the "Sparkplug" award and "Key Man" award this year. A Lufkin Foundry engineer, Jim has been an active Jaycee for two and one-half years.

Named to the Jaycees Board of Directors were two other Lufkin Foundry employees, DANNY MARTIN, Engineering Department; and RODNEY BRAZIL, Material Control. State Jaycee Director, Bob Dudley, of Jacksonville was the installing officer. Bob Sheehy, National Jaycee Director from Waco, was the main speaker for the occasion.

We extend our deepest sympathy to the family of O. J. BLAYLOCK, who passed away June 28. Mr. Blaylock had been an employee of Lufkin Foundry for about 21 years. He worked in the Trailer Division on the first shift.

RONNIE ALSBROOKS owes a lot to a pair of safety glasses. In fact, Ronnie probably would have lost the sight in his right eye had he not been wearing safety glasses while he worked on a jig in the Float Department. Some unknown object shattered the right lens in his safety glasses, but his eye was not injured. Ronnie works on the second shift, in the Trailer Division.

Mr. and Mrs. J. W. CHASTAIN are spending their vacation in San Francisco. J. W. works in the Machine Shop, first shift.

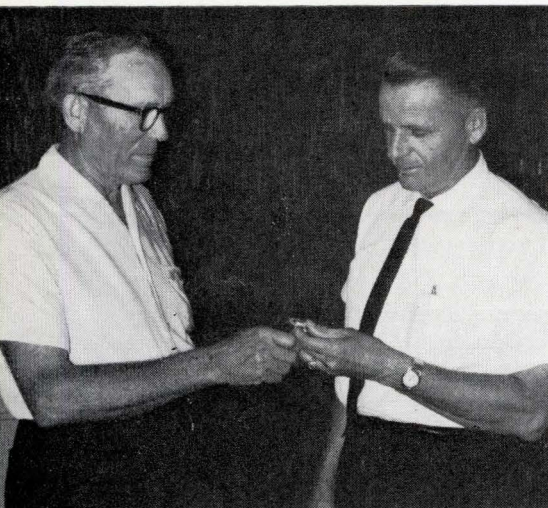

IDE RUSSELL, Assembly and Shipping Department, second shift, went to Six Flags Over Texas recently.

R. D. MCCLENDON is the happy owner of a new Ford. R. D. works in the Pattern Shop.

JIM ODOM, Maintenance foreman in the Machine Shop, just returned from a vacation trip to North Carolina.

A. G. COLBURN, left, Shop Superintendent of the Trailer Division, inspects the shattered lens on the safety glasses **Ronnie Alsbrooks** is wearing

LESTER READ, left, Trailer Division retiree, receives a gold watch from C. J. (Dude) Schuller, Vice-President.

J. D. ALEXANDER is the proud owner of a new car. He works the first shift in the Trailer Division.

LESTER READ retired from Lufkin Foundry after completing some 22 years of employment. He worked in the Trailer Division.

Lester plans to enjoy his retirement to the fullest, but he won't be resting too much. He and Mrs. Read have a garden where they grow peas, corn, butterbeans, and tomatoes, and they put all of this in their deep freeze.

Lester and Mrs. Read also enjoy fishing and growing flowers. Lester received a gold watch to mark his retirement on June 1.

W. C. HENDRY is spending his vacation in Colorado with his family. W. C. is employed in the Assembly and Shipping Department, first shift.

MAURICE WILSON, Trailer Division timekeeper, and Mrs. Wilson are the happy owners of a new home.

We are happy to see JOHN LAWRENCE back after having surgery. John works the first shift in the Machine Shop.

We extend our deep sympathy to Mrs. VERNON RANGE, whose mother passed away. Vernon works in the Cleaning Room of the Foundry, on the second shift.

Mr. and Mrs. THOMAS MODISETTE recently enjoyed a week-end trip to Galveston although they got too much sun. Thomas works in the Pattern Shop.

Too many parents are not on spanking terms with their children.

Three cellmates in a Russian cell were talking over how they got there. "I was juggled for being absent from work," said one. "When I was only a little late."

"Me?" said the next fellow. "I came to work early one day and was accused of being a capitalist spy."

"I got to work on time one day," said the third, "and was accused of owning an American watch."

Old bookkeepers don't die—they just lose their balance.

Two Englishmen out for a night on the town met two girls and took them into a dimly lit pub to eat. Suddenly one man turned to his friend and whispered, "I say, old boy, would you mind terribly changing dates?"

The other replied, "No, what's the matter with yours?"

The friend answered, "Between the grog, the fog and the smog, I seem to have picked up an old aunt of mine."

She talked in her sleep so he sent her home to mutter.

The world's best after-dinner speech: "Waiter give me both checks."

Book agent to farmer: "Better buy an encyclopedia now that your boy is going to school."

Farmer: "Nothing doing. Let him walk, the same as I did."

The minister discovered shortly before the garden party that he had failed to invite an old lady parishioner and hastily phoned her an invitation.

"It's too late," she answered. "I have already prayed for rain."

Women need never expect to be men's equals until they can support a large bald spot on the top of their heads and still think they are good looking.

Cosmetics: Preparations used by teenagers to make them look older sooner, and by their mothers to make them look younger longer.

A tactless person is one who says what everyone else is thinking.

A "restricted" real estate development is one in which no one is allowed to buy a home which he can afford.

A passenger on a transatlantic flight was carrying on a conversation with the stewardess with the obvious purpose of impressing his fellow passengers with his English. He asked the stewardess: "How high is this plane?"

She answered: "19,000 feet."

He nodded solemnly, thought a moment, then called to the stewardess again: "How wide is it?"

After waiting for what seemed hours, the customer buttonholed the head waiter: "Just a matter of curiosity," he said, "did the waiter who took my order leave any family?"

Women: People who can talk their way out of anything except a telephone booth.

A judge asked a defendant why he struck his wife. The prisoner said her back was turned, the broom was handy and the back door was open.

A small girl watched, fascinated, as her mother smoothed cold cream over her face.

"Why do you do that?" she finally asked.

"To make myself beautiful," answered the mother, who then began removing the cream with a tissue.

"What's the matter?" asked the girl, "Giving up?"

Rancher: "What kind of a saddle do you want? One with a horn or one without?"

Dude: "Without, I guess. You don't seem to have much traffic around here."

"So," sobbed Ilma Kropotkin Vasilenconvitchasky, "Ivan Ninespordky died in battle. Did he really whisper my name as he passed on?"

"He did his best, lady," was the reply. "He did his best."

An Englishman and a Scotsman found themselves on a raft after the ocean liner they were on broke up and foundered. The Englishman cried: "Good heavens, nothing worse than this could have happened to us!"

"Sure an' yer wrong, laddie," said the Scotsman. "D'ye know, I almost bought a round-trip ticket?"

The hardest thing for most wives to get used to after marriage is being whistled for instead of at.

The parson was giving his first sermon in the big new church, and he celebrated the occasion by really teeing off on the sinners. After the service he met one of his most outspoken parishioners. "How did you like my sermon?" he asked.

"Well, Reverend after raising all the money to build this new church we sorta hoped you'd quit yelling at us."
