

The Foundry Roundup

JUNE, 1968

From the PRESIDENT'S DESK...

FELLOW EMPLOYEES:

WITH mechanical equipment, failure often leads to ruin. In the human mind and in personal experience this is not the case, for we can often learn the route to success through failure.

There are few positions in life in which difficulties have not been encountered, and quite often severe difficulty leads to failure. These difficulties are, however, our best teacher, as our mistakes sometime create our richest experience. We learn wisdom more often from failure than from success.

On the other hand, we should strive with all determination to succeed in any job undertaken, regardless of the difficulty, because we do not directly achieve our goal by failure. Our greatest accomplishments generally have taken place in a time of severe hardship, not failure.

At times when we have become dejected over apparent failure, we have then come forward with the correct thought or discovery after much difficulty, resulting ultimately in complete success.

We cannot depend on Lady Luck to keep us out of hot water. We may follow it to failure and even to ruin but not to success. Lloyd Jones stated: "The men who try to do something and fail are infinitely better than those who try to do nothing and succeed."

When we design and build a machine, we take every precaution to insure that it is manufactured to do the job without trouble or failure. If it does not function properly, it is rebuilt or dropped from the line.

This is the way it should be with our thoughts and actions. Our final achievement depends a lot on how hard we try, and the help we get from someone along the way.

This type philosophy was stated very simply by Lincoln who said, "I want it said of me by those who knew me best, that I always plucked a thistle and planted a flower where I thought a flower would grow."

R. L. POLAND

PRESIDENT R. L. Poland, center, congratulates the winners of the Company's Charitable and Educational Foundation's four-year scholarships which were awarded at school's end

SCHOLARSHIP WINNERS are NAMED

FOUR high school graduating seniors whose parents are employees of Lufkin Foundry and Machine Company have been awarded \$2000 scholarships each by the Charitable and Educational Foundation.

Winners this year are Janice Ann Chapmon of Wells High school, Jennie Brock of Huntington High school, and Terry Bishop and Richard Alan Tate, both of Lufkin High school.

Janice Ann is the daughter of Mr. and Mrs. Robert Chapmon. Her father is a truck driver in the Traffic department.

Jennie is the daughter of Mr. and Mrs. Ertis Brock, and her father is employed in the Commercial Gear department.

Terry is the son of Mr. and Mrs. Connellee Bishop. Connellee is foreman of the van finish off department in the Trailer Division.

Richard is the son of Mr. and Mrs. E. M. Tate; his father is manager of Marine Gear Sales.

Each scholarship is valued at \$2000 with \$500 being paid each year for four years to the winner's college. Terry and Janice Ann plan to attend Angelina College while Jennie will enter Texas Women's University at Denton and Rick will go to The University of Texas.

MR. & Mrs. Robert Chapmon and Janice Ann who was graduated from Wells High School. She chose Angelina College

The scholarships are awarded on the basis of character, citizenship and scholarship. Winners are selected by a committee known only to the trustees of the Foundation and none of the committee members is an employee of Lufkin Foundry.

C. J. (Dude) Schuller, president of the Foundation, presented the scholarships to the winners at special assembly programs at each school.

He stressed the fact that Lufkin Foundry is pleased to present these scholarships to recognize the achievements of students of Lufkin employees

MR. & Mrs. Ertis Brock and Jennie who was a May graduate of Huntington High school. She will study nursing

and to encourage and foster interest in higher education.

He said he hoped sometime in the future for the Foundation to be able to award more than four scholarships annually.

In a meeting in his office earlier this month, R. L. Poland, president, congratulated the winners and told them how proud the Company is of their achievements.

"We will continue to be interested in you," he said to the four high school graduates, "and we want to know of your accomplishments in college. If we can help you in any way, let us know."

Applications for the Foundation's scholarships must be made when the student registers for the senior year in high school. Application forms may be obtained from the student's high school principal or from the Angelina County School Superintendent.

The application must be completed and filed with the Angelina County School Superintendent not later than October 1 following the student's registering for the senior year.

A high school student who has a parent who has been an employee of Lufkin Foundry and Machine Company in its Lufkin, Texas, office or plant for at least one year when the student registers for the senior year in high school is eligible to apply for a scholarship. A student whose parent is an officer of the Company is not eligible.

Parents are urged to remember the deadline for filing applications for these scholarships, and to encourage their children to complete the application forms and file them with the county school superintendent before October 1, 1968.

MR. & Mrs. Connellee Bishop and Terry, a graduate of Lufkin High school. He will attend Angelina College in September

MR. & Mrs. E. M. Tate and Rick, scholarship winner from Lufkin High school. He will attend The University of Texas

Credit Union NEWS

LFM Federal Credit Union is a member of the Texas Credit Union League and through that League, it is associated with the Credit Union National Association.

There are some 50,000 credit unions in the world and about 23,000 in the United States.

In Texas there are 1380 credit unions with memberships of more than one million and assets in excess of \$500 Million.

Credit unions are supervised by the Federal Bureau of Federal Credit Unions which is a self-supporting agency of the U.S. Department of Health, Education and Welfare.

LFM Credit Union's books are examined annually by the Federal Bureau of Federal Credit Unions and they are audited by the local supervisory committee.

According to the rules for federal credit unions, 20 per cent of net earnings must be set aside as a reserve to offset any possible losses.

The record of losses among all federal credit unions is only two-tenths of one per cent of the total amount of money loaned.

If for any reason a credit union which is a member of the Texas Credit Union League should dissolve, the TCUL will purchase the assets of that credit union and pay out the shares to members. To date no member of a credit union affiliated with the Texas Credit Union League has lost any money.

All members of LFM Federal Credit Union are asked to notify the credit union office of any change in address. Semi-annual statements will be mailed at the end of this month and changes of address should be reported immediately.

Shop Talk

LUFKIN Foundry has more than 2000 employees. Most of these people are honest, law-abiding citizens. However, once in awhile something happens to make us wonder about some of our co-workers.

For example, let's take the case of **BILL TEMPLE**, industrial Engineering department. Meekly and mildly, Bill went to the sales department to get a company car for a trip to Bryan. He was given the keys to a white Plymouth and told where it was parked.

He says he looked for the Plymouth in the designated parking space, but it was not there. Next, he noticed a good-looking white car parked three spaces away. He looked in the car, saw the keys in the ignition and promptly dropped the Plymouth keys into his pocket and drove merrily on his way to Bryan.

Meanwhile back at the ranch, **LOUIS FINCHER**, Engineering department, feels the pangs of hunger at 12 o'clock and goes out to get in his new white Oldsmobile 85 to go home to lunch. The car was not where he left it. After looking around, he went to the guard, **R. W. WIMP, SR.**, to learn if someone had driven his car away.

Wimp got excited and they began a search. He finally called the sales department and learned they had given

the keys to Temple and the Plymouth was still in its parking space. They called **FRANK STEVENSON**, head of the Industrial Engineering department, who in turn located Temple in Bryan and told him he was not driving a white Plymouth owned by the Company but was driving a white Oldsmobile belonging to Louis Fincher.

Needless to say, Temple was shook up. When he got back to Lufkin that night, he washed and shined the car, filled the gas tank and went to Fincher's house with his head hanging low. Because he felt sorry for Bill's obvious case of nerves, Louis assured him he would not prosecute.

Today, Louis Fincher does not leave his keys in his car. All other employees are cautioned to take their keys with them when they park their cars. Other-

wise, there's no telling which car Bill may select when next he makes a trip out-of-town.

Our congratulations to **DANNY JAMES STANBERRY**, Trailer division, upon his marriage June 15, to Miss Sharon Modisette.

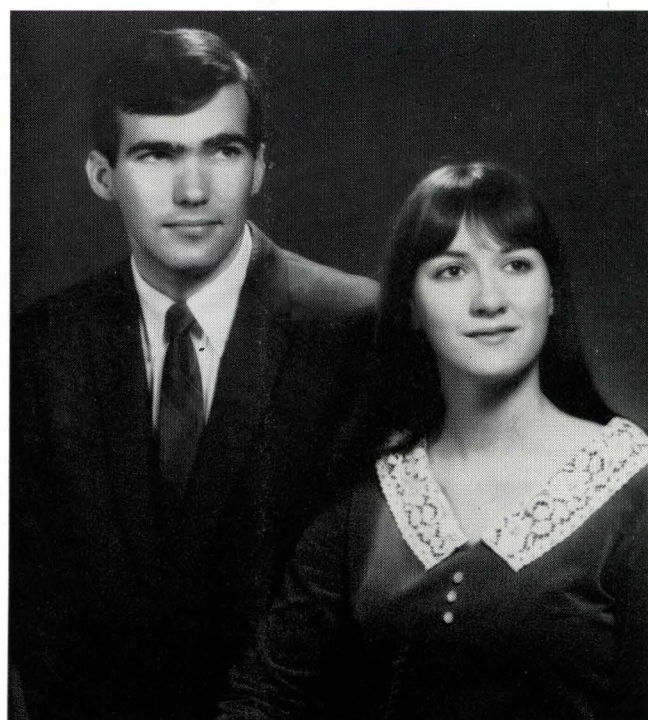

DOUGLAS JONES, Trailer Division Order department, is an enterprising young man. He's offering to keep yards mowed for a year for \$50 and then at the end of the year, fill the customer's freezer with meat.

Someone was about to hire him when he asked how Douglas could do this so cheaply.

"Well, you see it's like this. I stake a goat in your yard and at the end of the year, I slaughter him and wrap the meat for your freezer."

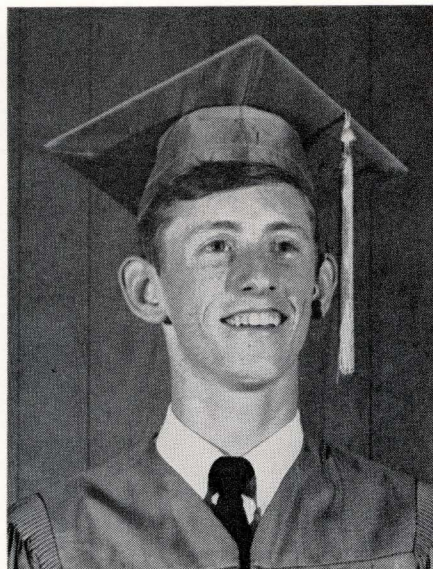

Mr. & Mrs. Danny Stanberry

TOMMY DEAL, KAREN MORGAN . . . to be married July 6

MARKING A MAY ANNIVERSARY

JOHNNY HOPSON . . . May Graduate

Douglas is having so many takers on his offer that he's in need of many more goats.

Spec. 4C MORRIS WEEKS, son of Mr. and Mrs. HAROLD B. WEEKS, is in Vietnam and has distinguished himself for bravery. A special feature story about Morris was carried in the Lufkin paper. We were pleased to read that he survived a trying ordeal while on patrol one night.

His father is employed in the Gas Engine department, and Morris is a former employee.

Our congratulations to EVERETT RHODES who is to be married June 28 to Linda Thornton in the Sebastopal Congregational Methodist church. Everett works in the Pattern Shop.

Our best wishes to SHIRLEY RAY, Accounting department, who is to be married June 22 to Freddy L. Williamson in the First Congregational Methodist church. Her father is OLEN RAY, Trailer Division, second shift.

Johnny Hopson, son of Mr. and Mrs. Edwin Hopson, was graduated from Lufkin High school May 31. He plans to attend Tyler Junior College next September. His mother is First Aid nurse.

Our congratulations to Thomas Lee Deal, son of Mr. and Mrs. R. C. Deal, who is to be married July 6 to Karen Dianne Morgan. The wedding will be in the Kennard Baptist church. Tommy's father is foreman of the Construction and Maintenance department.

Summer time has come, and everyone and everything is looking for a cool spot. Even the famous Hippo at the Lufkin Zoo is getting in on the act. The picture on these pages shows the Hippo getting a mouth wash from a garden hose and he loves it!

Puzzled Sam says he's not against Political Jokes. He just wonders how they get elected!

Etiquette: The noise you don't make while eating soup.

Intuition: The ability women have to read between the lines on a blank sheet of paper.

Just because nobody disagrees with you doesn't necessarily mean you are brilliant—maybe you are the boss!

A specialist is one who has trained his patients to become ill during office hours.

One of the great joys of retirement, says a friend who knows, is looking out the window on a winter morning and watching all the gainfully employed neighbors running down their batteries.

We wonder where the automobile industry finds all those empty roads to film the commercials on.

Alfred Tweetle, my hen-pecked uncle, hasn't made a decision of his own since he turned over in his sleep.

The teen-age daughter had been on the family telephone for half an hour. When she finally did hang up, her father said sarcastically, "You usually talk for two hours. What stopped you this time?"

"Wrong number," she replied.

Football and baseball will never fade from the scene. We gotta have something to separate the commercials.

"So you've given up taking tranquilizers?"

"Yes, I found myself being pleasant to people I shouldn't even speak to."

In Police Bulletin: Drivers who help empty jugs help fill ours.

Shoe department manager to customer: "Yes, we have quite a selection of loafers. I'll see if I can get one to wait on you."

First Class: "Give me a shovel quick! Our Scoutmaster is stuck in the mud up to his shoelaces."

Tenderfoot: "Up to his shoelaces? Why doesn't he just walk out?"

First Class: "Just give me the shovel and don't argue. He fell in head first."

Dad: "Now, son, I told you not to eat your peas with a knife."

Son: "I can't help it. My fork leaks."

Boss: "Why are you here? Didn't you receive my letter saying that you're fired?"

Worker: "Yes, but on the envelope it said, 'Return after five days.'"

"Down on the farm we go to bed with the chickens," boasted the farmer.

"I wouldn't be so proud of that," answered the city lad. "In our town we'd rather sleep in bed."

Barber: "Haven't I shaved you before?"

Sailor: "No, I got that scar in World War II."

Junior: "What happens to a ball player when his eyesight begins to fail?"

Dad: "They make an umpire out of him."

Guide: "That's a skyscraper, lady."

Visitor: "My, my, I'd sure like to see it work."

"Youth," is that time of life when you can run a mile on a track, but need the car to go two blocks to the drug store.

There are now especially designed specs for men who stare at the many mini-skirted girls. They're called "Thigh-focals."

Two small boys were discussing their home lives.

"What time does your mother make you go to bed, Tom?" asked little Johnny.

"Eight o'clock," replied Tom.

"Gee whiz," said Johnny ruefully. "I have to be in bed by 7:30. My mother is half an hour meaner than yours."

First husband: "My wife finds my money wherever I hide it."

Second husband: "My wife never finds mine. I put it in the basket with my undarned socks."

Stranger: "Are they biting?"

Fisherman: "If they are, stranger, they're biting each other."

"Did you see a Chug-Chug girl go by?"

"What's a Chug-Chug girl?"

"That's a Go-Go girl after she reaches 40."
