

The Foundry Roundup

SEPTEMBER, 1968

From the PRESIDENT'S DESK...

FELLOW EMPLOYEES

We are proud that we were able to find summer work for 95 young adults in our plant here at Lufkin this summer. Many of these students attended school at Stephen F. Austin College in Nacogdoches during the day and worked in the plant in the afternoon or at night.

Our supervisors contend that the majority of these young people were eager and enthusiastic about their work, demonstrating a real desire to learn and improve their skill. This gave them an opportunity to develop a sense of responsibility and a better understanding and appreciation of our company. Some of these will return to work for us after they have completed their college education.

We are always looking for young men who are eager to go after a job in the old-fashioned way; men who do not mind working with their hands, and getting them dirty if necessary.

It has been said that a man who works with his hand is a laborer. a man who works with his hands and his head is a craftsman, but a man who works with his hands, his head, and his heart is an artist.

These young laborers of today are tomorrow's craftsmen and next year's artists. When we hire one of these, we can't wait to find out what kind of worker he is and load him down with many tasks.

We find that our artists of today were yesterday's craftsmen and last year's laborers. Our company is built with people who put their hands, their heads, and their hearts into their work, but not all who are employed by us are that willing. Are you using your potential to the fullest?

R. L. POLAND

College Scholarship Plan

FOR CHILDREN OF EMPLOYEES OF
LUFKIN FOUNDRY & MACHINE COMPANY
FROM THE
LUFKIN FOUNDRY & MACHINE COMPANY
EDUCATIONAL & CHARITABLE FOUNDATION

EDITOR'S NOTE: *The following information about the College Scholarship Plan of the Company's Educational and Charitable Foundation is being published again after four years for the benefit of employees who have children who will graduate from an Angelina County high school next May.*

Number of Scholarships

Three scholarships are awarded under this plan each year; however, a lesser number will be awarded if there are fewer than three eligible recipients.

Students Eligible To Apply

A high school student who has a parent who has been an employee of Lufkin Foundry and Machine Company in its Lufkin, Texas, Office or Plant for at least one year when the student registers for the senior year in high school, is eligible to apply for this scholarship. A student whose employee-parent becomes totally incapacitated, retires, or deceases at any time during such student's tenure in high school is eligible to apply provided the parent had been an employee of Lufkin Foundry for at least two years prior to such incapacity, retirement or decease. A student whose parent is an officer of the company at the time such student registers for the senior year in high school is not eligible.

Purpose of Scholarship

The purpose of this scholarship is to express an interest in the families of Lufkin Foundry employees and to help create greater interest in higher education.

When To Apply

The time to apply for a Foundation scholarship is when the student registers for the senior year in high school.

How To Apply

A student can apply for a Foundation scholarship by completing an application form and filing it with the Angelina County School Superintendent, County Courthouse, Lufkin, Texas. The application form with a 9th, 10th, and 11th grade transcript attached must be filed with the Angelina County School Superintendent not later than October 1 following registration for the senior year in high school. An application form can be obtained from the student's principal or from the Angelina County School Superintendent.

High School Grade Required

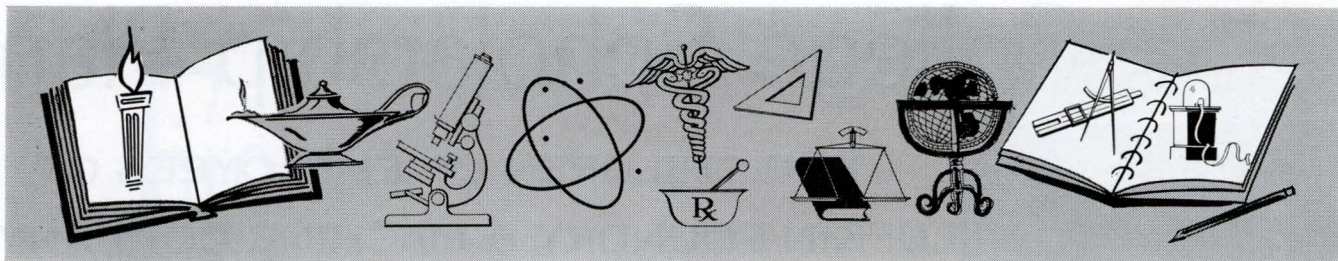

To be eligible to be considered for a scholarship, a student must graduate from an accredited high school, and the student's grades for the four high school years must average at least 80.

College Board Entrance Test Required

Not later than January 31 in the senior year of high school, scholarship applicants will take the Scholastic Aptitude Test of the College Board Entrance Examination. Not later than April 1, applicants will file with the Angelina County School Superintendent (1) a report of the results of the Scholastic Aptitude Test, and (2) a transcript of the first semester grades of the senior year in high school.

Scholarship Committee

Each year the Foundation will appoint a Scholarship Committee which will evaluate the qualifications of the applicants and select the winners. The Angelina County School Superintendent will not be a member of the committee, and no officer or employee of Lufkin Foundry will be a member of the committee.

Qualifications To Be Considered

Each applicant will be graded on the following qualifications:

- I. Scholarship in its broadest sense
 - A. Grades made in high school
 - B. Grades made on College Board Entrance Test
 - C. Probability of success in college
 - D. Probable utilization of college education
- II. Character
 - A. Ambition
 - B. Reputation
 - C. Fairness in judgment
 - D. Respect for rights of others
 - E. Personal stability
- III. Citizenship
 - A. Health
 - B. Personality
 - C. Disposition
 - D. Qualities of leadership
 - E. Cooperation with fellow students and teachers
 - F. Willingness to be of service

In arriving at the student's over-all grade, the grade made upon each of the three above-listed qualifications will be weighed as follows:

Scholarship 65%, Character 20%, and Citizenship 15%.

Announcement of Awards

The Scholarship Committee will receive from the Angelina County School Superintendent (1) on or about October 1 the application forms and (2) on or about April 1 the results of the Scholastic Aptitude Test and transcripts of the first semester grades of the senior year in high school. Based upon this information, and such other information as may be obtained, the Scholarship Committee, prior to the end of the school year, will determine which of the applicants are to receive the scholarships. The Scholarship Committee will then submit the names of the scholarship recipients to the Lufkin Foundry Foundation, which, in turn, will make appropriate announcement.

Student Selects College

Scholarship students may choose to attend any accredited college or university in good standing located within the State of Texas. Upon receiving notice of a scholarship award, the student should contact the Secretary of the Foundation, located at the office of Lufkin Foundry and Machine Company, for further information and instructions.

Amount of Scholarship

Each scholarship is for a total of \$2,000, payable \$500 per year for four years, provided the student remains eligible.

How Scholarship Is Paid

A \$500 payment is scheduled to be made at the beginning of the first semester of each of the four school years. The payment is made by check to the college or university selected by the student and approved by the Foundation.

Cancellation of Scholarship

If a student attending college on a scholarship fails to maintain satisfactory grades, or misses a fall or spring semester for a reason other than illness or military service, the scholarship will be cancelled and no further payment made. An absence of two years from college, regardless of the reason, will terminate eligibility. A college to which funds have been advanced for a student who subsequently becomes ineligible should return unused funds to the Lufkin Foundry Foundation.

Awards Made Only To Eligible Applicants

An award will be made only when there is an eligible applicant, and any of the three annual awards that are not made due to the lack of an eligible applicant will be cancelled and will not be carried forward.

Scholarship Creates No Obligations

The awarding of a scholarship does not constitute an offer of employment, and the acceptance of a scholarship does not create any employment obligations. Acceptance of a scholarship award in no way obligates the recipient to the Foundation nor the Foundation to the recipient.

Duration of Scholarship Plan

The Lufkin Foundry and Machine Company Educational and Charitable Foundation believes that this scholarship plan may be continued indefinitely. Yet, it also realizes that conditions may change in the future, and therefore, reserves the right to modify or terminate the Plan, in whole or in part, in such manner as it may determine.

APPLICATION

LUFKIN FOUNDRY AND MACHINE COMPANY

EDUCATIONAL & CHARITABLE FOUNDATION

COLLEGE SCHOLARSHIP

For The Children of Employees at Lufkin Foundry & Machine Co.

(To apply for this scholarship, fill out this form when registering for the senior year of High School, and file it not later than October 1 following registration with the Angelina County School Superintendent, Courthouse, Lufkin, Texas. Attach a 9th, 10th, and 11th grade transcript.)

_____ Date

STUDENT'S:

Name (Give full name): _____

Mailing Address: _____

High School Being Attended: _____

PARENT'S:

Name: _____

Date Employed by Lufkin Foundry & Machine Co.: _____

Date of Death, Retirement, or Incapacity, if Applicable: _____

I am aware that it is required that I take the Scholastic Aptitude Test of the College Board Entrance Examination not later than January 31 (check): _____

I am aware that it is required that I file with the Angelina County School Superintendent not later than April 1 (1) a report of the results of Scholastic Aptitude Test, and (2) a transcript of my grades made in the first semester of the senior year in high school (check): _____

I am aware that an over-all high school grade average of 80 is the minimum requirement for eligibility (check): _____

My general health is (check one): Good _____:
Average _____: Poor _____.

Extra-curricular Activities (list school clubs or organizations to which you have belonged, offices held, any special honors received, etc.):

Out-of-school Activities (list out-of-school clubs or organizations to which you have belonged, offices held, any special honors received, etc.):

Presently, I plan to attend the following college or university if I receive this scholarship:

First Choice: _____

Second Choice: _____

Student's Signature

Feasting on barbequed chicken are, left to right, around the table, Henry Finley (wearing hat), Harvey Berry, Andrew White, James Weeks, Bart Burk, Thomas Williams, Roy Malnar.

Roy Davis, James Stuckey, William Ballow, Freddie Gibson, Murph Hightower, Red Parker, and John Laird. The two men with backs to camera were guests.

Retirement Party held for Henry Finley

HENRY Finley was the guest of honor at a Material Control party on August 10 at the Chinquapin Hunting Club.

To commemorate his last year of employment, Henry's co-workers presented him with a barbecue grill which they had assembled the night before.

Originally meant to be a surprise party, it was postponed several weeks when Henry's mother, Mrs. Mattie Finley, fell and broke her hip. Accord-

ing to Henry, his 93-year-old mother is recovering quickly and in good spirits.

The accident occurred just prior to the party's original date, so Red Parker, shop foreman and organizer of the celebration, told Henry's wife that when the new date was set, the honoree could be informed. However, the gift remained a secret to Henry, although his wife knew of the surprise. The fellows confided in her before shopping for the gift, and she assured them that Henry was "in the market" for a barbecue grill.

When it was time for the presentation, Henry dressed in a chef's apron and hat on the pretense of posing for a picture. Meanwhile, the boys rolled out the barbecue grill behind Henry, who showed his sincere appreciation when he saw the gift.

Absent from the party but also in on the gift-giving were Lee Montes, Lloyd Hudson, Judge Hutson, Carker Smith, Sam Turner, and Gene Stewart. Guests at the party were Murph Hightower and Harvey Berry, retired employees of the Material Control.

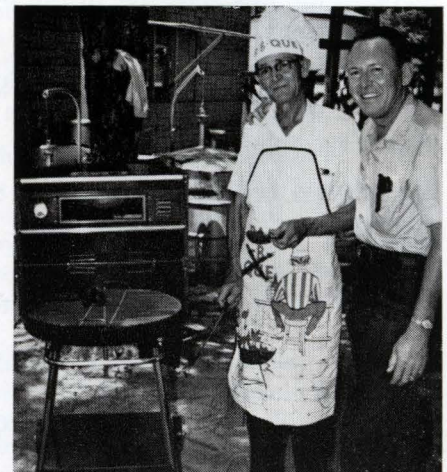

A mishap prevented the attendance

of two other employees. A tie rod came loose on Freddie Gibson's pickup, blocking the road to the clubhouse. When Dan Martin and Jack Blackburn found the road impassible, they returned to Lufkin.

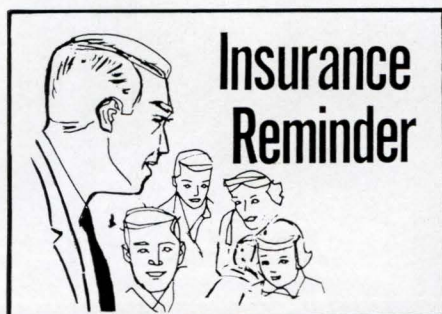

The group feasted on barbequed chicken to celebrate Henry's 23 years of loyal employment. He will retire at the end of the year.

HENRY samples John Laird's cooking.

RED Parker presents Henry Finley with a barbecue grill on behalf of Material Control employees.

TO INSURE proper Group Insurance coverage at all times, employees are reminded to notify the Insurance department of any change in their number of dependents.

Joe Perkins, insurance officer, says that the addition or loss of the dependents, when resulting in a change from one to another of the following classifications, will result in a change of premiums:

Employee without dependents

Employee with one dependent

Employee with two or more dependents

When changing from one of these classifications, the employee should note, after the first month, an increase or decrease in the premium which is deducted from his pay check. If there is no change in the premium, notify the Insurance department immediately. Also, when making a change from one classification to another, the employee should go by the Insurance department and sign a new card reflecting the change.

Employees' unmarried dependent children between the ages of 14 days and their 19th birthday are covered under hospitalization. Unmarried children over 19 years of age who regularly attend school or college and are dependent upon the employee for support may continue to be insured until they reach 23 years of age.

Employees who wish to change their beneficiary because of marriage, death or divorce, or for any other reason should notify the Insurance department and sign a new card reflecting such change.

Joe says he feels there might be employees who have divorced and remarried and continue to have a beneficiary listed as someone they probably do not wish to receive the life benefits.

Changes in the insurance coverage for the employee can be effected only when the employee signs a new insurance card reflecting the change. It is the responsibility of the employee to advise the Insurance department of circumstances that affect his coverage.

Shop Talk

This month's biggest fish story came from R. B. SMITH, Trailer division, first shift, and JOHNNY JONES, Welding and Structural, first shift.

The pair caught 261 catfish during a two-night fishing trip on the Neches River. They claim they threw back every fish weighing less than a pound, and the largest ones they kept weighed eight pounds. Those trot lines must have kept them trottin'!

Smitty and Johnny have 39 half gallons of sliced fish stashed in their refrigerators, if anyone needs proof.

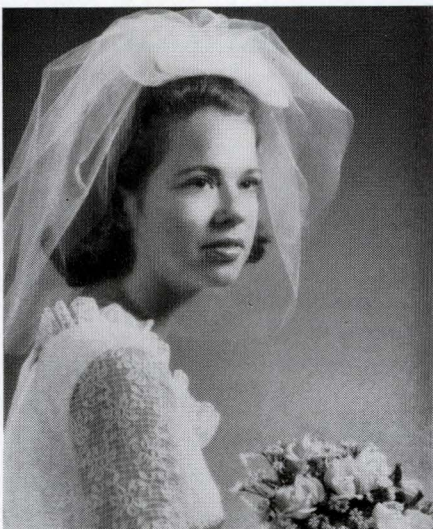

THE ROUNDUP extends deepest sympathy to A. G. HOLLIS, Machine Shop, second shift, and OREN ALLSBROOK, Foundry Department, first shift, whose sons were killed in a car accident.

The fellows at the Foundry Department, first shift, are glad to have EDWARD FLEMON back at work. He has been recovering from a foot injury since May.

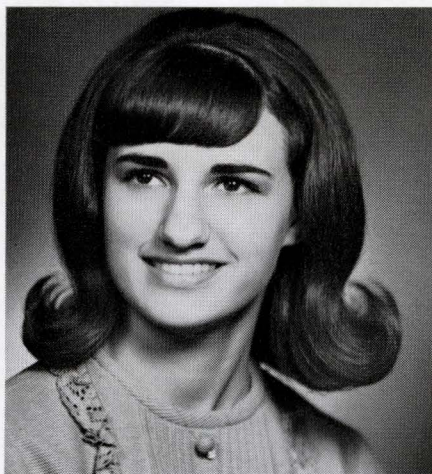

Sympathy is extended to ELBERT DAVIS, Foundry Department, first shift, upon the death of his mother.

LARRY VANN, Pattern Shop, may be a good poker player, but he's an absent-minded host.

Larry invited some friends to his house a few weeks ago for a poker game. This was fine, but, when the guests arrived, no one was at home. Larry and his wife were shopping and in no particular hurry to get home,

MRS. CLARK B. BROOKSHIRE

DEBORAH GASSAWAY . . .engaged to John Collins

at that. He had forgotten what time his own poker party was supposed to get under way!

Best wishes to Elaine Winthrop and Dee Modisette, who are engaged to be married. The father of the bride-to-be is CHARLES WINTHROP SR., Welding and Structural, first shift, and her brother, CHARLES JR. works at the Foundry Department, first shift. Dee's father is T. E. ATKINS, Foundry Department, first shift.

CLETUS RUSSELL is back at work after a month's illness. He works in Assembly and Shipping, first shift.

The E. G. PITTMAN family has returned to Lufkin after a week's vacation in New Mexico where they toured Carlsbad Caverns. They also visited HemisFair in San Antonio and Astro-world in Houston this summer.

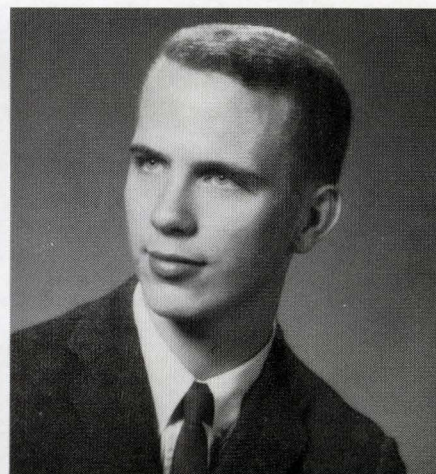

Rod is employed in the Foundry Department.

Congratulations to Mr. and Mrs. S. L. JOHNSON who were married July 26. The new bridegroom works in Welding and Structural, first shift, and his father is LINWOOD JOHNSON, Machine Shop, first shift.

Our sympathy is with J. E. DUNN, Welding and Structural, first shift, upon the recent death in the family.

DAVID KELSEY is back at work in Welding and Structural, first shift, following his stint in the army, including a tour in Vietnam.

ZACK FENLEY's condition has been steadily improving since his heart attack in July. The Pipe House foreman returned home in August after hos-

JOHN COLLINS . . . a Christmas wedding

pital care in Beaumont. THE ROUNDUP sends greetings to Zack as he recuperates.

Best wishes to a recently engaged couple, Deborah Gassaway, and JOHN COLLINS, Trailer division, first shift. The prospective bridegroom attends Stephen F. Austin State College where he is majoring in business and psychology. Both John and his fiance have attended The University of Texas.

They are planning a Christmas wedding.

Hearty congratulations to Mr. and Mrs. JACK LANDRUM, whose son was born July 24. Little Jack Allen, Jr., arrived at 1:57 a.m. and weighed 7 pounds, 14 ounces. His father is employed in the Lathe Shop, second shift.

We extend our sympathy to JIMMY THOMPSON, Machine Shop, first shift, upon the recent loss of his son, Kenneth.

Sheila Ann Cone became the bride of CLARK BROOKSHIRE, Machine Shop, third shift, on August 8. Congratulations to the newlyweds!

PAT JOHNSON's son, Kenneth Meers, recently left for Vietnam after completing his army basic training at Ft. Polk, Louisiana. Pvt. Meers, a graduate of Lufkin High School, plans to complete his degree in business when he finishes his military duty. He has attended Stephen F. Austin State College in Nacogdoches for three years.

Pat is employed in the Lathe Shop, first shift.

We hear that DAN TULLOS is threatening to wear stilts to work or get a barber's chair to lift him up so he can

KENNETH MEERS stationed in Vietnam

better reach that new American Lathe Machine. "PREACHER" WEEMS, Tool Room, says Dan has been complaining lately about being built "so close to the ground."

Good luck to Dan, who works in the Lathe Shop, first shift. (Maybe he will grow!)

Mark Stevenson, 11 years old, won his first riding trophy in the "western pleasure" event at the Wells Riding Club Horse Show on August 3. His father is FRANK STEVENSON, Engineering department.

Also honored were three sons of JACK BROOKS, Pipe House, first shift. Leslie, Arnold and Garland won five trophies riding in the barrels event and the poles event.

Congratulations to these four fine horsemen.

SAMMY GREENVILLE, Welding and Structural, first shift, will soon be leaving for the Marine Corps. Officers Candidate School. He is a recent graduate of Stephen F. Austin State College.

Sympathy is extended to LEE RHODES, Machine Shop, first shift, whose mother recently died.

We hear that there is a new baby in the home of Mr. and Mrs. ERVIN REYNOLDS. The proud papa works in the Maintenance department, first shift.

CHARLIE GAULT spent a few days in the hospital for a checkup recently. We're glad to see him back on the job in the Assembly and Shipping department.

The fellows in Welding and Structural claim that MAURICE MALONE looked years younger during the week

PETE MOORE . . . honored at retirement party

his two grandsons visited him.

Maurice "babysat" David, 4, and his 7-year-old brother, Mike, while their parents attended the Texas High School Coaches Convention in Fort Worth. Father of the boys and Maurice's son-in-law is George Boal, head football coach and athletic director at Tyler High School.

We are sorry to hear that BUD BULLOCK, who recently retired from the Machine Shop roster, had 17 stitches taken in his leg after a mishap in his boat.

Sympathy is extended to CECIL BERRY, Machine Shop, first shift, who recently lost his sister. Cecil attended the funeral in Seattle, Washington.

Congratulations to newlyweds Mr. and Mrs. George Bennett. She is the former Charlene McLain, daughter of CHARLES McLAIN, Commercial Gears.

BENNY LATHAM, Commercial Gears, is receiving his army basic training at Ft. Bliss near El Paso. Pvt. Latham's father-in-law is BILL LOVE, Machine Shop timekeeper, and his father is B. F. LATHAM, Tool Room, first shift.

J. E. "PETE" MOORE retired on July 26, but when he came back to the Lathe Shop on August 9 for a visit, his former co-workers honored him with a get-together during the afternoon break to commemorate his retirement.

They presented Pete with a casting rod, a tackle box, an aluminum folding cot, and a portable barbeque grill. Now that he has plenty of spare time, Pete frequently will be using his new gifts on fishing trips and camp outs at the lake.

Employed in 1945, Pete will be awarded a gold watch for his 23 years of service to Lufkin. We wish him many happy, healthy years of retirement.

Greetings to MARSHALL LEE CRAWFORD, Mill Supplies division, who had an emergency apendectomy on August 9.

A. C. HUNT, JR., Gas Engine department, announces the birth of his son, Darvin O'Neil. Born at 6:35 a.m. on August 2, little Darvin weighed 7 pounds, 10 ounces.

KEITH WALTERS, Mill Supplies division, who was awarded the Simon Henderson Scholarship, will attend Texas A&M University this fall where he will major in pre-veterinary medicine. Keith attended Lufkin High School where he was president of the Future Farmers of America.

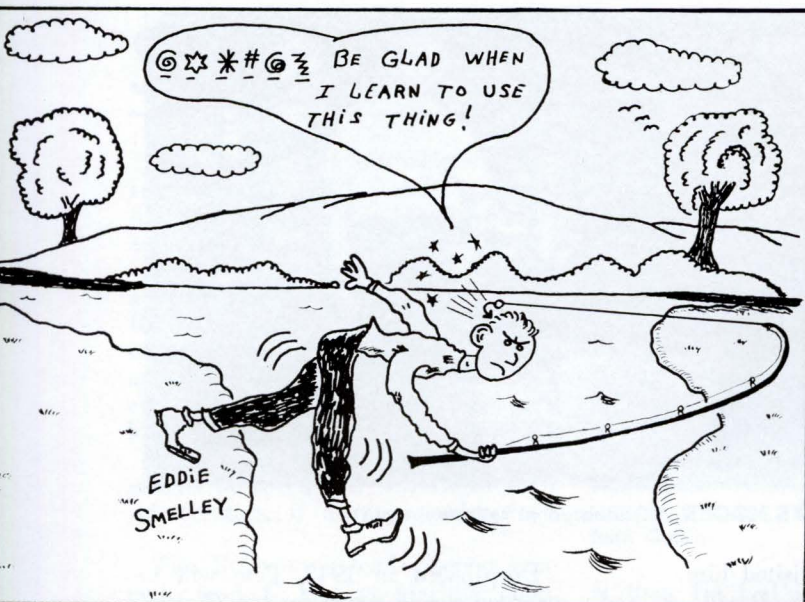

His father, QUINTON, and uncle, PRENTISS, are also employees of the Mill Supplies division.

Congratulations to Mr. and Mrs. GENE L. SINGLETON who were married in August. He works in the Trailer division, second shift.

We send sympathy to LEE RHODES, Maintenance department, whose mother recently died.

CARL R. WALKER has been missed by his co-workers in the Float department, second shift. He is recovering from a foot injury.

LESTER FULLER's son, Alan, has returned to Lufkin after ten months of service to his country in Vietnam.

CURTIS MILLS, JR., center, named "Most Outstanding" on the Texas A&M track team, is pictured with two other athletes.

Alan, a specialist, fourth class, in the 196th Light Brigade, received a special discharge to work as a carpenter contractor.

His father is a Van Sub-assembly employee, and his mother works in the Mail Room, Main Office.

You may be wondering about that cartoon of EDDIE SMELLEY. (By the way, the artist is CHARLES CAMPBELL, Tool Room, first shift.) Eddie and his brother, RICHARD, were fishing one day when Eddie's head sorta got in the way of the hook!

Anyway, Richard hurried his brother to the hospital where they learned that five other people had been treated for accidents of the same nature that very morning. It seems that fishing is becoming a pretty dangerous sport.

Their father, GHENT SMELLEY, Machine Shop foreman, suggested that Eddie borrow RILEY WEBB's helmet as protection from those poorly-aimed fishing hooks. Riley, Trailer Engineering department, can be seen wearing his helmet when he's buzzing around town on his motorcycle.

Eddie works in the Machine Shop and Richard is in Industrial Engineering.

J. B. PARNELL, Jig department, reports that his son, David, surprised his family August 10 by returning home for a 30-day leave. Pvt. Parnell has been in Veterans Hospital in Memphis recovering from the broken back he received in a helicopter accident in Vietnam.

David will return to Memphis in September for one more operation to

remove the pins from his back. He expects his army discharge papers soon after the operation.

J. B. and his wife spent their July vacation with David while he was recuperating at a San Antonio hospital.

Sympathy is extended to the family of W. D. MATCHETT, retired Foundry department employee, who recently died. His son is DAVID, Van Sub-assembly, first shift, and his brother is DELBERT, Machine Shop, first shift.

We extend sympathy to the family of JOHN D. JOHNSON, who died July 28. He had been a Trailer division employee for 18 years.

The son of CURTIS MILLS, Mills Supplies division, received a coveted athletic award during his freshman year at Texas A&M University.

Curtis Mills, Jr. was named "Most Outstanding" by the Aggie track coach, Charles Thomas. He was given a gold trophy at the athletic awards banquet.

Curtis, an accounting major, will be a sophomore this fall. He was also a track star at Dunbar High School, where he was graduated in 1967.

ICKEY BAIRD's son, Terry, was home for a three-week visit with his family in August. A specialist, fourth class, he has been stationed in Alaska.

Ickey is employed in Welding and Structural, first shift.

Our sympathy is extended to the family of JAMES MAY, who died re-

cently. He was a retired Trailer division employee.

We hear there is a new baby in the home of SAM SWINDLE. Congratulations to the new father, who works in Welding and Structural, first shift.

EVELYN BELL's sister, Rebecca Behannon, visited with the Bells for six weeks this summer. In August she returned to her home in Key West, Florida, where she teaches school.

During the visit, they took an extensive tour through New England where they visited several historic landmarks.

Evelyn is employed in the Mill Supplies division.

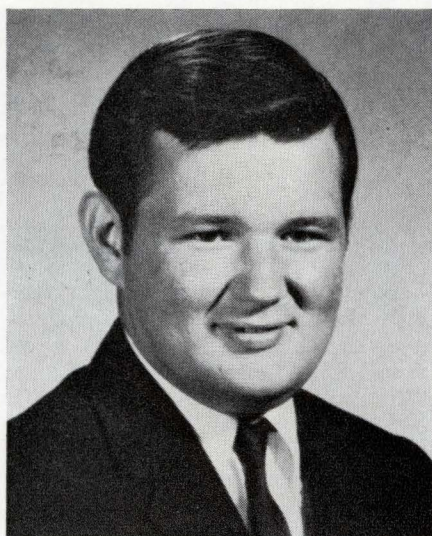

We extend sympathy to ALLEN GANN, Trailer division, first shift, whose mother died.

Airman Apprentice John D. White, Jr., USN, is serving aboard the anti-submarine warfare support aircraft carrier USS Yorktown at Long Beach, California. His ship recently returned from a seven month deployment in the Far East.

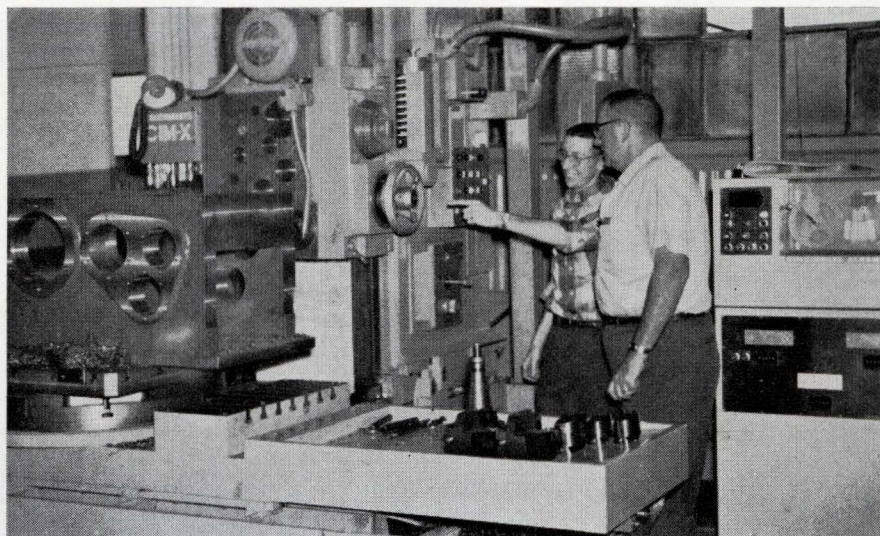

His father is JOHN D. WHITE, Machine Shop, first shift.

WANDA WILSON's son, Willie Frank, has been transferred to Chicago, where he is a salesman for the Chemical division of Shell Oil Company. He has been a sales trainee in the New York office.

Another son, Jerry, will attend Angelina College this fall.

JERRY WILSON . . . May graduate

JOE SIMMONS and GHENT SMELLEY discuss operating procedures of a new machine.

She is an employee of the Mills Supplies division.

Congratulations to Mr. and Mrs. Stacey Lee Burnett who were married August 16 in the First Baptist Church of Keltys. The bridegroom's father is LEE R. BURNETT, Accounting department.

We are wondering if RILEY WEBB, Trailer Industrial Engineering department, has caught up on his sleep yet.

From a reliable source, we learned that Riley was awake most of the night during a business trip to Dallas while JAMES BOYD snored—loudly!

The "snorer" works in the Gas Engines department.

The son of the ALLEN W. GANNS is now serving with the Marine Fifth Communication Battalion, Force Logistic Command, in Vietnam.

Corporal Aubrey Gann's unit maintains and installs communication equipment throughout South Vietnam. They are also engaged in a civic action program to assist the Vietnamese people in completing self-help projects, such as building bridges and schools.

His father is employed in the Trailer division, first shift.

Mr. and Mrs. JOHN M. DANIEL announce the engagement of their daughter, Chloetta Jo Ann, to Pvt. Paul Edward Harrison. The wedding is set for September 13 at 8 p.m.

The father of the bride-to-be works in the Machine Shop, first shift.

Congratulations to Mr. and Mrs. Thomas Lee Deal who were married July 6. Tommy's father, CLIFTON DEAL

is foreman of the Construction and Maintenance department.

The manager of our North Texas District, oil field sales, became a father on June 25 at 3:30 p.m. Congratulations to Mr. and Mrs. ERNEST SLAUGHTER, JR., whose son, Stephen McCulloch, weighed 7 pounds, 9 ounces at birth.

The Slaughters live in Wichita Falls.

Two Lufkin Foundry bowling teams will begin their annual competition in September.

Members of the Kingpins are ZACK FENLEY, Pipe House, first shift; BOBBY SPELLS, Engineering Lab; Stacey Burnett, the son of LEE BURNETT, who also plays on the team and is employed in the Accounting department; and GEORGE HAYGOOD, Lathe Shop, first shift.

The Mark Five team consists of JAMES CARLILE, Welding and Structural, first shift; CHARLIE HAMILTON, Trailer Parts department; AL MALLONEE, Engineering department; JIM MEWBURN, Engineering department; GEORGE GIBBS, Accounting department; and RONNY SMITH, Welding and Structural, first shift.

Last year the teams placed at three out-of-town tournaments including the Southwest Bowling Tournament at Wichita, Kansas; the Texas State Bowling Tournament at Austin, Texas; and the Terrell Invitational Tournament at Terrell, Texas.

The teams get together every Monday night from September through May.

GHENT SMELLEY, Machine Shop foreman, and ELLIS JOHNSON, Jig de-

partment, agree that the new Cincinnati three-axis tape controlled horizontal boring mill is truly a "new-fangled" piece of equipment.

The pair spent several weeks looking for hand wheels to operate the machine before JOE SIMMONS, Industrial Engineering, pointed out that it is computerized or tape controlled.

FRANK STEVENSON, Engineering department, explained that it mills, bores and drills gear housings plus many other small but complicated parts.

A farmer couldn't tell his two horses apart so he tried cutting the tail off one horse. This didn't work either because it grew back.

Then he cut off the mane of the other horse. But this didn't work either because the mane also grew back.

Finally, he measured them and found that the white horse was two inches taller than the black horse.

My wife loves gardening. I don't think there's anything she'd rather see me do.

Two monkeys were discussing the theory of evolution, "Do you mean to tell me that I am my keeper's brother?"

The school teacher was discussing proper manners with her young class. "And do you know why we must cover our mouths when we yawn?" she inquired.

"To keep the bubble gum from falling out," one lad said.

The folks down the street returned from their vacation and their little daughter was heard to exclaim, "Look, Daddy, you forgot to turn off the grass."

Having completed a quick sale the day before, the used car dealer was worried when he saw the purchaser driving into the lot. "What's the matter?" he asked. "Nothing wrong with the car, is there?"

"Not yet," replied the purchaser. "I just wanted to return these things for the quiet little old lady you said owned the car before I bought it. She left her cigars in the glove compartment and her bottle of gin under the front seat."

A wife pointed to her husband stretched out in a hammock and explained, "Fred's hobby is letting the birds watch him."

Hillbilly Ma: The doctor says you shouldn't kiss the baby. It ain't sanitary.

Hillbilly Pa: Then why don't you wash it?

Bride: What is the best way to protect a wedding ring?

Father: Dip it in dishwater three times a day.

The proud Texan on a business trip to New York City received some good news so he went into the Stork Club to boast of it. "Biggest baby ever born in the country," he declared, handing out \$2 cigars. "Why, the nurse says they have to use sheets 81 inches wide and 108 inches long!"

"Hey," a New Yorker interrupted, "I happen to know 81 by 108 is standard size. That's no larger sheet than any other mother uses."

The Texan smiled and swelled his chest. "For diapers?" asked he.

Harassed surgeon to medical students watching a delicate operation: "Will the wise-guy who keeps saying 'oops' please leave!"

Exciting new TV techniques are promised for this summer's political conventions. Just so they don't include instant replays of the speeches.

"I keep seeing little spots before my eyes."

"Have you seen an ophthalmologist?"

"No, just little black spots."

If you want to hear about hard luck! I know a guy who proposed to three girls and told his boss what he thought of him—and THEN his draft board turned him down!

Today is the tomorrow you worried about yesterday. Now you know why.

Don't eat so fast. Haste makes waist.

A man was telling his headshrinker about the dream he had. "It was terrible, doc. I was shipwrecked on an island with Brigitte Bardot, Raquel Welch, and Jane Fonda."

"What's so terrible about that?" the doctor asked.

"I was Helen Hayes," he moaned.

Did you hear about the two hippies who got married in a bath tub? They had a double ring ceremony.

Having been on a prescribed yogart diet for one year, the dieter wrote, "35 Ways to Serve Yogart." A year and a half later, and still on the same diet, he wrote a sequel, "One More Thing You Can Do With Yogart."

Sign on a church bulletin board: Planning to go to heaven? Get your flight training here.

Postcard to the Weather Bureau, "Sirs: I thought you would be interested in knowing that I have just shoveled three feet of partly cloudy from my front steps."
