

# *The Lufkin Roundup*

SEPTEMBER 1970

# FROM THE PRESIDENT'S DESK . . .

## FELLOW EMPLOYEES:

OUR minds usually turn to the subject of education each September when our schools begin again. There probably has been no subject more widely written and read about than education. This is as it should be for as Daniel Webster said many years ago, "on the diffusion of education among the people rest the preservation and perpetuation of our free institutions."

Mr. W. C. Trout, who sparkplugged the growth of this company in the early years of its existence, never let an opportunity pass in which he might strike a note about the need of men to use their minds or to encourage them to insist that their children get as much schooling as possible.

He spoke at the drop of a hat on this subject. At the Citizens Chamber of Commerce meeting in 1944, not quite three years before his death, he challenged his audience with these words: "Do you insist on your children procuring an education? That to my notion is the only real free service we get in this world. Everything else is locked up and costs money. Next to the church, there is no agency that could do as much for you and your children."

Today Lufkin Industries continues to encourage people to get as much education as possible to help them live a fuller, better life. For several years now the Company has provided teachers, classrooms and lesson materials for employees to take courses in blueprint reading, shop math and elementary welding. Some 93 classes of 48 hours per class have been taught, resulting in 636 graduates.

The Company also sponsors supervisory courses for working foremen and supervisors. Employees who wish to attend Angelina College or SFA are encouraged to do so, with the Company scheduling

their work so that they may attend either night or day classes and still work fulltime.

Lufkin Industries was one of the first to support the movement to get a junior college in Lufkin, knowing that many employees and their children would benefit from such an institution, both as college preparatory and in the vocational and technical courses that would be offered.

This Fall the Company is cooperating with the Engineering Extension Service of Texas A&M University which will send instructors to Lufkin for concentrated night courses.

Since 1965, 24 children of employees have received college scholarships amounting to \$52,800 from Lufkin Industries, Inc. Charitable and Educational Foundation.

There is a certain group of our young men and women who value their education enough to let it show in their behavior and citizenship. They are the ones who believe in freedom—for everybody—not just for those who share their views.

They feel deeply about social problems but they don't riot. They believe in social change to right wrongs and improve conditions—so much so that they are willing to work for it.

They're the college students you don't hear much about these days—the young men and women who believe in action—not violence. These are the ones who are courageous enough to enter the business world where they can really initiate social change if they are smart enough, and dedicated enough.

We are fortunate to have a goodly number of this kind of young, educated activist working for Lufkin Industries, and we believe that the right kind of education can create an activist that is measured by worthwhile accomplishments.

R. L. POLAND

# APPLICATION

LUFKIN INDUSTRIES, INC.

EDUCATIONAL & CHARITABLE FOUNDATION

COLLEGE SCHOLARSHIP

For The Children of Employees at Lufkin Industries, Inc.

(To apply for this scholarship, fill out this form when registering for the senior year of High School, and file it not later than October 1 following registration with the Angelina County School Superintendent, Courthouse, Lufkin, Texas. Attach a 9th, 10th, and 11th grade transcript.)

\_\_\_\_\_ Date

**STUDENT'S:**

Name (Give full name): \_\_\_\_\_

Mailing Address: \_\_\_\_\_

High School Being Attended: \_\_\_\_\_

**PARENT'S:**

Name: \_\_\_\_\_

Date Employed by Lufkin Industries, Inc.: \_\_\_\_\_

Date of Death, Retirement, or Incapacity, if Applicable: \_\_\_\_\_

I am aware that it is required that I take the Scholastic Aptitude Test of the College Board Entrance Examination not later than January 31 (check): \_\_\_\_\_

I am aware that it is required that I file with the Angelina County School Superintendent not later than April 1 (1) a report of the results of Scholastic Aptitude Test, and (2) a transcript of my grades made in the first semester of the senior year in high school (check): \_\_\_\_\_

I am aware that an over-all high school grade average of 80 is the minimum requirement for eligibility (check): \_\_\_\_\_

My general health is (check one): Good \_\_\_\_\_:  
Average \_\_\_\_\_: Poor \_\_\_\_\_.

Extra-curricular Activities (list school clubs or organizations to which you have belonged, offices held, any special honors received, etc.):  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Out-of-school Activities (list out-of-school clubs or organizations to which you have belonged, offices held, any special honors received, etc.):  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Presently, I plan to attend the following college or university if I receive this scholarship:

First Choice: \_\_\_\_\_

Second Choice: \_\_\_\_\_

DUNBAR'S squad are, left to right, Deborah Berry, Doris Johnson, Kathy Collins, Patricia Charlton, Patricia Williams, Ovelia Garner, Julie Roberson, and the Tiger's mascot, 8-year-old Darlene Hardin.

By CAROLYN CURTIS

# FOOTBALL IS

**T**RY THE word association game one more time.

Short skirts and long hair. Trim figures and broad smiles.

(Men: hope you came up with "girls!")

Try again . . . and this time be more specific.

Eagle spreads and splits. Pom poms and megaphones.

Still mystified?

Another hint: they are perhaps the

only high schoolers who retain the classic All-American image from year to year, even generation to generation.

Give yourself an A if you guessed "high school cheerleader," an A+ if the Panther and Tiger cheerleading squads came to mind.

Half of the fourteen spirited girls cheering the Lufkin and Dunbar A-teams on to victory this year are daughters of Lufkin Industries employees.

At Lufkin High the cheerleaders are Brenda Holiday, Cindy Anderson, Poo Dixon, Pam Coleman, Nancy Marsellos and Rhonda Fullen.

Four are the daughters of James E. Holiday, Electrical department; Billy Mack Anderson, Engineering; Bona Dixon, Machine Shop; and Betty Coleman, Trailer Division.

Dunbar's squad of eight include Julie Roberson, Patricia Williams, Deborah Berry, Kathy Collins, Doris Johnson, Brenda Allen, Patricia Charlton and Ovelia Garner.

Their employee-fathers are Lessie Roberson, Foundry department; The-ron Williams, Assembly and Shipping department; and Freeman Berry, Foundry department.

Although probably basically typical of teenagers everywhere and in most every generation . . . seemingly peppy and tireless during their packed 26-hour day, until they are called to set the dinner table. . . this year's Lufkin and Dunbar cheerleaders seem to have their own special brand of spirit.

**CHEERING** Lufkin High's Panthers are, left to right, Poo Dixon, Pam Coleman, Rhonda Fullen, Nancy Marsellos, Brenda Holliday and Cindy Anderson.

# A'COMING

For example, somehow they reserved enough energy and time between summer jobs, vacations, coke dates, slumber parties and telephone conversations to squeeze in a couple of hours of concentrated practice each afternoon beginning in July.

And at cheerleading clinics during the summer, ours manage to walk off with most of the awards, bringing recognition to our town and schools. There they learn the fundamentals of crowd psychology . . . how to hold the attention of a crowd, how to chase away the Monday morning blues after a losing weekend, how to time their yells to coincide with the plays on the field, even when to be silent . . . plus they compete with cheerleaders from hundreds of other schools in precision, routines, delivery and even tumbling.

Plenty of pressure is on the girls, but ours excel.

For example, Dunbar's eight took top awards during the summer of 1969 at Prairie View A&M where they were named the "Most Outstanding" group of yell leaders in attendance.

Pleased by the success of both the cheerleaders and athletic teams, Dunbar honored the same girls in the spring by putting them back in front of the crowd for the coming school year. Two of them, Patricia Charlton and Deborah Berry, have been elected cheerleaders every year since eighth grade. The others have had at least one year's experience behind the megaphones.

The LHS squad attends cheerleading camp at SMU and, in 1969, brought home the "spirit stick" and three third place awards. Cindy Anderson, Pam Coleman and Poo Dixon have been leading cheers since ninth grade.

The fourteen range in height from 4' 10" to 5' 9" and average about 115 pounds.

They may be small, but they make themselves heard!

# Shop Talk

**L**FM Credit Union Officers report that employees who have not received statements lately should check with the Credit Union office.

They said that several statements were returned because employees moved without leaving a change of address notice at the Credit Union office.

Employees who have moved are reminded to leave their forwarding address with the Credit Union office, Personnel department and Publications department.

Terri Lynn Basey, daughter of FRED BASEY, Trailer Division, and niece of FERN BASEY, Main Office Billing department, won the Little Miss Huntington title from a field of 15 little misses.

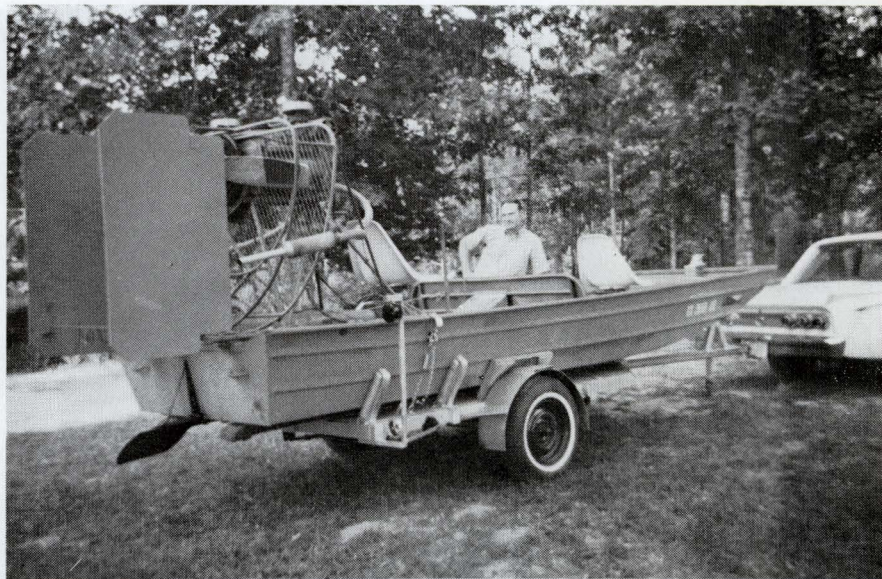

The four-year-old queen was selected by a panel of judges on general appearance, dress and stage appearance. She received gifts from Blackstocks, Canon & Parker, Kibbie's, Boots Grocery, Finley's Auto Supply, Coburn's, Sportsman's Corner, Huntington State Bank and Mavis Beauty Shop.

Mr. and Mrs. HARRY LEE WESTBROOK made a drive through the Southeastern states on their vacation this summer. He works in the Welding and Structural Shop, first shift.

Cadet Clifford N. Gardner, son of Mr. and Mrs. ISRAEL GARDNER, has completed six weeks practical application in military leadership at the Army

**TERRI LYNN BASEY . . .**  
Little Miss Huntington

**LEON CARROLL** predicts that this air boat soon will be the most popular boat on East Texas lakes.

Reserve Officer Training Corps' advanced summer camp at Ft. Sill, Oklahoma.

An architecture student at Prairie View A&M College, he is one of approximately 17,000 young men who attended ROTC advanced summer camps at military installations throughout the nation.

His father works in the Trailer Division Yard Crew.

GAYLAND WALLACE, Lathe Shop, first shift, BUDDY PULLEN, Maintenance department, first shift, and LYLE CARPENTER, Machinery Division Sales, all had sons in the East Texas Little League Tournament this summer.

Also the grandson of LEAMON BULLOCK, Assembly and Shipping, first shift, was among the team members.

There's some question as to the nature of BETTY ROACH's noontime activities, report certain employees of the Trailer Division Industrial Engineering department. She works in the Trailer Sales Office.

J. D. (PUNCHER) PINNER, Welding and Structural Shop, first shift, and family spent their summer vacation in Wisconsin.

Ernest C. Roberts recently was promoted to Army sergeant near Duc Pho, Vietnam, where he is serving as a squad leader with Company A, 3rd Battalion, 1st Infantry Brigade, American Division.

His brother is JACK ROBERTS, Pipe House, first shift.

LEON CARROLL, Trailer Division Machine department, predicts that the futuristic boat he has designed and built may soon be crowding the lakes of East Texas.

He put a six-cylinder, air-cooled Corvair engine on it, used a Volkswagen starter and a 68-inch airplane prop.

Leon calls it an air boat and if it proves to be a success, he may try to market more of them. He says it would be great for duck hunting or fishing in water as shallow as one inch, because the engine is out of the water and the boat skims over the surface, missing stumps.

The boat is 16 feet long, 72 inches wide and holds up to five passengers. It travels at 30 mph.

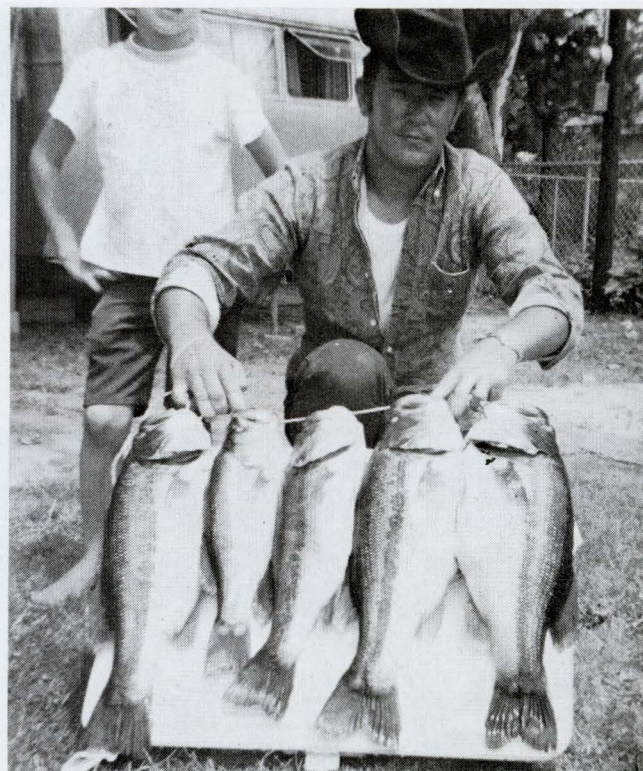

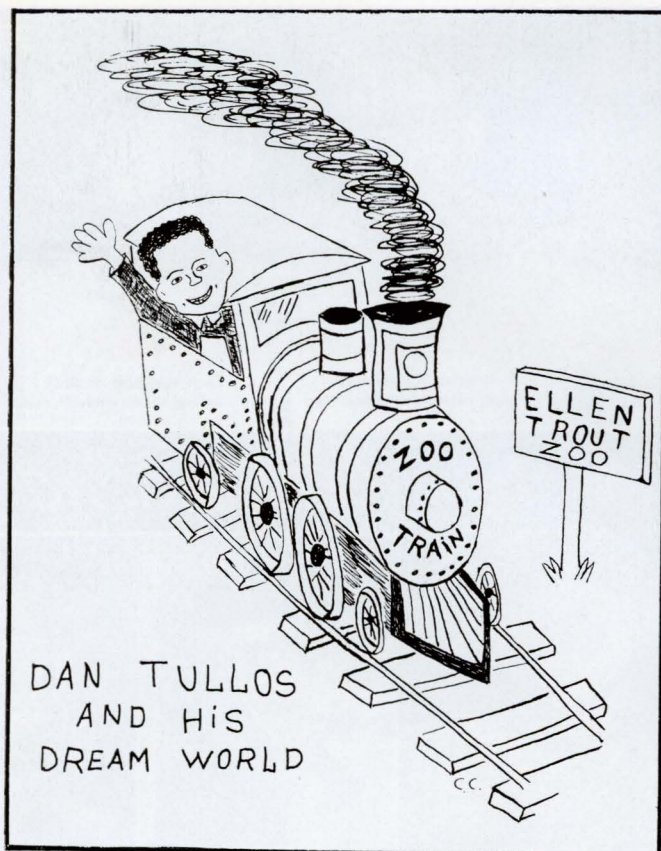

"The faster the motor turns, the lighter it feels. It wants to get airborne," he chuckled, adding that it sounds about like an airplane when it is cranked up.

DUB GREEN, Trailer Division Maintenance department, made a three-week tour of the Northwest including Washington and Oregon.

JERRY DENBY reported to Houston Aug. 3 for his induction into the army. Before he was drafted, Jerry was an employee of the Pattern Shop, first shift.

BOBBY CONNER says that the most impressive part about his 12-day vacation to Mexico in June was watching the divers in Acapulco Bay.

"If they don't time it precisely,

BASS Weighing 3, 4, 5, 5 $\frac{3}{4}$ , and 6 pounds and caught with devil horse bait were caught by Linwood Havard Jr. (pictured) and Loyce Sandlin, both employees of the Machine Shop, second shift.

there's no encore for them," he said, explaining the perilous dive into a 25-foot wave covering the jagged rocks below.

He also spent a few days in Mexico City where he enjoyed the bullfights. Bobby works in the Trailer Division Purchasing department.

Mr. and Mrs. VERNON NIXON and their three youngsters visited Astroworld and Marineland during a three-day jaunt to Houston. He is an employee of the Pattern shop, first shift.

First Lieutenant John K. Griffin, an infantry officer who served with the 1st Cavalry (Airmobile) Division in Vietnam, has been assigned commanding officer of Company A, Special Troops at Ft. Polk, Louisiana.

Prior to his appointment, Lt. Griffin was a trial counselor for Courts and Boards, Special Troops. His awards and decorations include the Purple Heart and Combat Infantry Badge.

He was graduated from Texas A&M University in 1968 with a BBA and attended the Officers Basic Infantry course at Ft. Benning, Georgia.

Both his parents are employees. Joan works in the Personnel department and Kelley is an employee of the Mill Supplies Division.

MURRELL McMULLEN, Pattern Shop, first shift, and his wife and two children spent a week's vacation in New Orleans in July.

Lathe Shop employee DAN TULLOS, who takes about as much teasing as anyone, was the subject for a cartoon on these pages depicting what the fellows claim was his childhood aspiration.

It was to be a train engineer and the cartoonist thinks Dan would have fit nicely into the Ellen Trout Zoo mini-train. We understand, however, that the job went to OLIVER MCKAY SR., a retired employee.

Darruth and RAY RUSSELL spent their anniversary in New Orleans, where they had honeymooned after their wedding three years ago. He works in the Traffic department.

Cadet Charles F. Poland, son of Mr. and Mrs. ROBERT L. POLAND, a business administration major at Stephen F. Austin State University, was among ROTC cadets receiving advanced military leadership training at Ft. Sill, Oklahoma, this summer.

BILL FORD and RILEY WEBB say they introduced JOHNNY FINCHER, Machinery Division salesman in London,

England, to East Texas worm fishing when he was in Lufkin early this summer.

Bill and Riley are engineers in the Trailer Division and Machinery Division, respectively.

The guys in the Tool Room, first shift, are always coming up with something.

This time it's on GRADY CAMPBELL, T. J. SELMAN and CALVIN CRAIN, employees of the Machine Shop.

Seems that when Governor Preston Smith was in town, the three were among the guests at a dinner in his honor. Naturally, the jokers wouldn't let them alone about it and elaborated on the facts a little.

They claim that Grady surprised everyone in the room by jumping up during the banquet and out of the clear blue announcing where he worked. They even said that Calvin's necktie was so tight that he fainted three times!

BILLY HARRIS, Pattern Shop, first shift, said of his vacation to Six Flags Over Texas, "They almost walked me to death!" He and his family spent two days at the amusement park between Dallas and Fort Worth.

RELAXING with coffee during their vacation in the Rockies are Mr. and Mrs. Hubert Lankford and Mr. and Mrs. W. J. Wilson.

AIR FORCE Lt. Col. Alvin B. Richards . . . now squadron commander of the 39th Tactical Electronic Warfare Training Squadron.

EIGHTEEN-month-old Sandra Denise Shaw strikes a cute pose atop her favorite toy. She is the youngest child of Tommy and Marjorie Shaw and her father is an employee of the Yard Crew, first shift.

WALTER BUTLER reports that his vacation was spent in Galveston. He works in the Trailer Division Machine department.

Lt. Col. Alvin B. Richards, stationed at Shaw Air Force Base, South Carolina, has been named squadron commander of the 39th Tactical Electronic Warfare Training Squadron.

His 28 years of service, connected with several different commands including the Strategic Air Command, have taken Col. Richards virtually around the world. He flew 126 missions during the bombing of North Vietnam. During World War II he flew the P-47 "Thunderbolt" Aircraft and served in the Aleutian Island chain in the North Pacific.

He holds the Distinguished Flying Cross, the Air Medal with eleven oak leaf clusters, the Air Force Commendation and other decorations.

His brother is WINSTEN RICHARDS, Trailer Division Machine department.

A. D. RICE traveled to Florida with his sister and brother-in-law for a week's vacation in the sun. He works in the Trailer Division Machine department.

BILL COUNTS, Assembly and Shipping, first shift, says he wishes to clear

up the rumor that his dog died as a result of biting Bill.

"True, he did go to the hospital," stated Bill, "but he did not die."

The W. J. WILSONS and HUBERT LANKFORDS vacationed for a week together in Colorado this summer.

They drove to Colorado Springs and visited the Royal Gorge, Cave of the Winds, Garden of the Gods, Pike's Peak and a golf camp at Cripple Creek, which claims to be the world's most famous.

Nights were spent in a three-bedroom lodge along the bank of the Buffalo River, where the water was 40 degrees and the temperature at night got down to 38.

"People there need no fans or air conditioning," they wrote home.

On the return trip they visited Boot Hill in Dodge City, Kansas, and saw numerous relics of the old west.

Hubert is employed in the Gear Cutters department and W. J. in the Machine Shop, both second shift.

#### Congratulations to newlyweds:

Mr. and Mrs. EDWARD ASA PILLOWS, who were married June 20. Parents of the couple are Mr. and Mrs. Lawrence William Whisenant and Mrs.

George Pillows and the late Mr. Pillows. The bridegroom works in the Machine Shop, second shift.

LEE Burnett, Accounting; James Carlile, Welding and Structural, first shift; and Zack Fenley, Pipe House, on behalf of the two company bowling teams present Bob Poland this trophy in appreciation of the sponsorship of shirts for the teams during the past year.

Mr. and Mrs. DONALD WAYNE HENSELEY, whose wedding was June 26. She is the former Sandra Ann Lankford, daughter of Mr. and Mrs. WALLACE LANKFORD, and her father works in the Machine Shop, first shift. The bridegroom is an employee of the Machine Shop, second shift, and his parents are Mr. and Mrs. Don Hensley of Groveton.

and weighed 7 pounds 4 ounces. Roland works in the Trailer Division Purchasing department.

Mr. and Mrs. LARRY NASH, whose wedding was July 3. She is the former Jean Womack, daughter of Mr. and Mrs. Ed Womack, and his parents are Mr. and Mrs. FRED NASH. Fred works in the Trailer Division, and the bridegroom is employed in the Commercial Gears department, first shift.

Mr. and Mrs. S. W. PATRICK. Sheila Ann weighed 7 pounds 9 ounces when she was born July 10. The new father is employed in the Trailer Division Van Sub Assembly department.

#### There are new arrivals in the homes of:

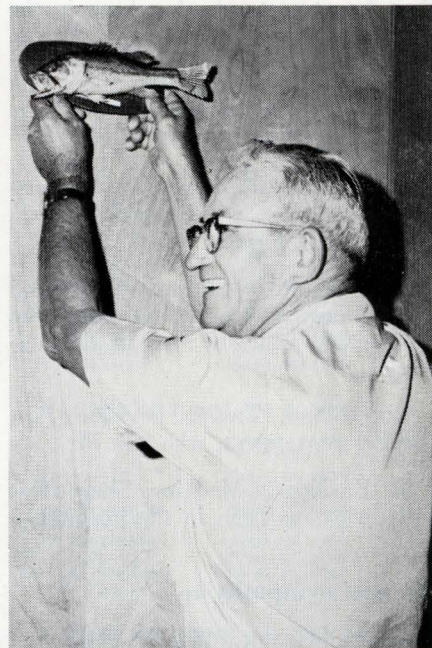

Mr. and Mrs. Joseph Dane Burnett. Joseph weighed 6 pounds 8 ounces when he was born April 8. The baby is the grandson of B. C. BURNETT, gear manager in Lafayette, Louisiana, and the great-grandson of JOE BURNETT, Yard Crew foreman.

Mr. and Mrs. WILLIAM WAYNE MCCLENDON, whose daughter was born July 19 and weighed 8 pounds 6 ounces. The new father works in the Jig department, first shift.

Mr. and Mrs. JERRY BOB TAYLOR. Lisa Michelle weighed 7 pounds 3 ounces when she was born July 8. The new father works in the Machine Shop, third shift.

Mr. and Mrs. ROLAND MCGEE, who adopted Scott. He was born April 28

Mr. and Mrs. George Merriwether, who announce the adoption of Jason Flynn. He was born July 6 and weighed 9 pounds 12 ounces. Maternal grandfather is Ed ROOT, Trailer Division Warehouse foreman, and George and Pat are former employees of the Trailer Engineering department and Accounting Department respectively.

C. D. BOYKIN of the Order department strains to support this half-pound bass, mounted for him by Jerry Crawford at the suggestion of others in the Engineering building who claim C. D. tends to stretch his fish stories a bit. The half-pounder is labelled "Six-pound bass caught by C. D. Boykin." The recipient took all the ceremony and teasing well.

### Best wishes to:

CECIL KUEHL, Trailer Division Van department, who was hospitalized.

PAUL LAIRD, Welding and Structural Shop, first shift, who was ill.

R. A. MITCHELL, Foundry department, first shift, who has been ill.

ELLSWORTH PARKER, Machine Shop, first shift, who has been ill.

TOM SHOEMAKER, Trailer Division Float department, who was ill.

Mrs. BOBBIE BENTLEY, who has been in the hospital. Her husband works in the Pattern Shop, first shift.

JOHN GREGORY, Lathe Shop, first shift, who has been ill.

JAMES OATES, Welding and Structural Shop, first shift, who is back at work following his illness.

BUCK BARRINGTON, Trailer Division Machine department, who was in the hospital.

E. W. CHAPMON, Traffic department, who had an appendectomy.

JOHN BOULWARE, Trailer Division Van department, who has been in the hospital.

WOODROW LEE, Machine Shop, first shift, who has been recuperating from injuries received in a car wreck.

IZIAH JOHNSON, Foundry department, first shift, who is back at work following his illness.

J. L. (BLUE) SELMAN, Machine Shop Assembly Floor, first shift, who was missed while he was in the hospital.

DON WIER, Trailer Division Purchasing department, who was ill.

F. E. NULL, Machine Shop, first shift, who has been in the hospital.

### Deepest sympathy to:

MANZEL CLARK, Machine Shop, first shift, upon the death of his father.

PETE THOMPSON, Foundry department, first shift, upon the death of his daughter.

CLINT PHILLIPS, Foundry department, second shift, upon the death of his brother.

EVEN newspaper carriers have deadlines, say Jack, left, and Rusty.

## MARTIN BOYS... *Honored Paper Carriers*

**J**ACK and Rusty Martin spent Saturday, July 25, at Six Flags Over Texas, a vacation well-earned by the two conscientious and hard-working sons of Mrs. Betty Martin, Machinery Division Sales Office.

The Lufkin News picked up the tab for the trip, including transportation, a busload of some 50 determined carriers who beat the pavement selling new subscriptions to earn the trip.

The Martin boys sold 17 subscriptions each.

The News also honored them in January and June with trophies naming each a "Carrier of the Month."

With his earnings, Jack, 16 and a junior at Lufkin High School, is meeting payments on a 1970 Volkswagen. To make the downpayment, in June

Jack handled three paper routes or approximately 300 newspapers. He now is responsible for two routes of 100 papers each, and 13-year-old Rusty, an eighth grader at Lufkin Junior High, throws an additional 100 papers on his own route.

Every afternoon except Saturday finds the pair folding, rolling and even wrapping—when the weather looks threatening—and on Sunday the whole family gets into the act. Betty and her mother, Mrs. Mills, and the boys are up at 4:30 a.m. rolling and delivering.

"The only thing that really slows down delivery is when the papers have to be 'porched,'" Betty said, adding that, as helpers, she and her mother have learned to use the carriers' lingo as freely as the boys.

When vacation is over, you'll often find

As you give it a backward look,  
You could have made out with  
Half the clothes and twice  
The money you took.

The problem is our kids are being told today that it's more important to be dry under their arms than behind their ears.

It's easy to make a long story short when the boss walks in.

Most husbands prefer that their wives wear their dresses a little longer—about three years longer.

Two men sat at a bar. Suddenly one man pulled a mouse out of one pocket, a tiny piano out of another, then a little piano bench, and finally a butterfly. Immediately the mouse began to play the piano and the butterfly began to sing. The onlooking gentleman was amazed.

"You've got a great act there," he said to the owner of the amazing mouse and butterfly. "I'll bet you Ed Sullivan would pay a million bucks for that act."

"It's not worth it," said the owner glumly. "You see, the butterfly isn't really singing; the mouse is a ventriloquist."

A thoughtful wife is one who has the pork chops ready when her husband comes home from a fishing trip.

First lady: "How are your children doing in school?"

Second lady: "Better. But I still go to PTA meetings under an assumed name."

Lost balloonist: "Ahoy below, where am I?"

Startled farmer: "Heh, heh, ya can't fool me, by gum. Y'er up there in that little basket!"

A man worked in a bakery and was paid by the loaf to slice bread. He had a regular knife and was slicing one loaf at a time. Then one day he went to a cutlery shop, bought a longer knife and sliced two loaves at a time, thus earning twice as much money.

Content for a time, he began to think of doing three at a time. The cutlery shop, alas, was unable to supply a longer knife but the guy spotted a sword in an antique shop capable of the three-loaf task. So he began earning three times as much money as before.

Now for more money. The cutlery and antique shops were unable to help. One day he passed a butcher shop and saw a huge cleaver in the window that would cut four loaves of bread at one time . . . so he bought it. Walking down the street, cleaver under his arm in a package and smiling his best smile, a friend intercepted him and asked, "What are you so happy about? This must be your lucky day."

"It sure is," said the slicer, "I found a four-loaf cleaver!"

Everything in the modern home is controlled by switches except the children.

Dissatisfied with the way his car had been repaired, a surgeon complained to the mechanic, "If I repaired people the way you repair cars, I'd be in jail."

"But doctor," the mechanic protested. "You must admit your job is easier."

"Easier?"

"Of course, doctor. You only have to work on two models, a male and female, which never change from year to year."

Near the end of a tense golf match, one contestant, very temperamental, was thrown off his game when his caddie developed a severe attack of hiccoughs. On the seventeenth hole he

sliced his drive clean out of bounds and growled fiercely at the caddie, "That was on account of you and your blank-ety-blank hiccoughs."

"But I didn't hiccough then, sir," protested the caddie.

"That's just the point," screamed the player. "That time I had allowed for it!"

In filling out an application for a factory job a man puzzled for a long time over this question: Person to notify in case of accident?

Finally he wrote, "Anybody in sight."

Once upon a time there lived a king on a South Pacific island who had a great passion for collecting thrones of all sizes, shapes and descriptions. He had a second story built onto his grass hut where he kept the collection of thrones. And he went on adding new thrones.

One day, when the king added a particularly heavy throne, the ceiling gave way and all the thrones crashed through and killed everyone in the hut.

Moral: People who live in grass huts shouldn't stow thrones.
